RUSSIA URGES COMPLETE WORLD DISARMAMENT

Spratt Challenges Pooley; Dr. Toimie Asleep and Only Pessimist, Pattullo Asserts

Six Hundred Strong, Ward Three Liberals Stage Lively
Annual Meeting; They Re-elect W. Kinsman as Pres-
ident and Listen to Speeches

Declarations by Hon. T. D. Pattullo, Minister of Lands, that "Dr. Toimie, genial and jovial fellow that he is, is asleep," as Conservative leader, and a challenge by C. J. V. Spratt, president of the Victoria Liberal Association, to R. H. Pooley, Conservative House leader, were the features of Ward Three Liberal's annual meeting, attended by 600 persons last night in the Sons of Canada Hall.

"Mr. Pooley in the newspapers makes the charges that the association has hired some Conservative to make trouble in the Conservative Party," Mr. Spratt said. "As president of the Victoria Liberal Association, I want to state to you that that is not true. I will challenge Mr. Pooley to show that cheque and I will make a wager with him on it, the proceeds to go to the hospital and he can make it as big as he likes."

Mr. Pattullo dealt with some of the recent public remarks of Hon. S. F. Toimie, Conservative leader.

"How can you expect British Columbia people to invest in their own country when Dr. Toimie and these Tory pessimists are running around saying that the country is no good?" Mr. Pattullo asked.

Mr. Pattullo gave some detail as to the expansion and progress this country has been making in the last few years, but Dr. Toimie all the time goes on talking pessimism.

"I say wake-up, Dr. Toimie, you are talking in your sleep," Mr. Pattullo went on.

Mr. Pattullo ridiculed Dr. Toimie's opposition to the Australian Treaty, which he declared was proving so beneficial to Canada that the Australians were talking of abandoning it.

"If we in Canada adopt a narrow, insular, parochial policy, we are going to lose our trade with the world," Mr. Pattullo continued, pointing out that Canada has the largest per capita foreign trade of any country of the world and that it was vital in her

REVOLT IN UKRAINE IS CRUSHED AFTER 5,000 PEOPLE KILLED

Three Months of Bitter Fight-
ing Just Ended, Says News-
paper Correspondent

New York, Nov. 30.—Suppression of a revolt in the Ukraine at a cost of 5,000 lives during three months of bitter fighting is reported in a special copyrighted dispatch from Kishineff, Bessarabia, to The New York Times.

The dispatch, telling of massacres and street clashes in towns along the Dniester River, which forms the Russian-Rumanian boundary line, confirms in large measure recent dispatches to the Associated Press from Bucharest, citing an account of fighting in the Ukraine reported by the Rumanian newspaper Dimitea.

REINFORCEMENTS SENT
Soviet reinforcements which arrived in the Ukraine in the past two weeks turned the tide of the revolutionary movement and after a series of clashes in various towns the revolt was crushed out in a bloody disaster for the revolutionaries, it is stated.

Soviet officials have made denial of any extensive revolt in the Ukraine, specifically denying any fighting at Kamenetz-Podolsk, but the sound of prolonged firing beyond the Ukrainian hills can be heard daily from the Rumanian side of the frontier, the dispatch says.

Refugees who succeeded in crossing the border from the Ukraine into Bessarabia, told the Times of the burning of several villages and the destruction of crops during the revolutionary fighting.

BANK CLEARINGS UP 25 PER CENT

Victoria bank clearings for the month ending today show a rate of twenty-five per cent over the clearing for November 1926, according to the figures issued by the Clearing House this afternoon.

The November clearing totals here for the last three years are:
November, 1927 \$1,217,812
November, 1926 \$844,029
November, 1925 \$,236,608

EXPECTED TO BE GIVEN A PEERAGE

RT. HON. W. C. BRIDGEMAN

First Lord of the British Admiralty
London, Nov. 30.—A number of changes involving Cabinet Ministers and Under-Secretaries in the Baldwin Government is forecast for the end of the year by the lobby correspondent of The London Daily Express.

The correspondent says it is believed in political circles that Colonel Wilfrid Ashley, Minister of Transport, and Sir Philip Cunliffe-Lister, President of the Board of Trade, possibly will be made peers.

It is also thought likely Rt. Hon. W. C. Bridgeman, First Lord of the Admiralty, will go to the House of Lords, says the correspondent.

TORY LEADERS DEMAND POOLEY PRODUCE PROOF

Conservative Association Of-
ficers Move to Deal With
"Cheque Charge"

House Leader Must Make
Good His Allegations or
Face Vigorous Action

Victoria Conservative prepared to-day to deal promptly and sternly with R. H. Pooley, Conservative Opposition Leader, for charging that an old-time Conservative here was in the pay of the Liberal Party.

Demanding that Pooley prove this grave allegation against the organized supporters of W. J. Bowser, K.C., in this city, heads of the Victoria Conservative Association decided to write immediately the photographic copy of the mysterious cheque on which Mr. Pooley bases his charges. A representative of the association will meet Mr. Pooley to-day and ask him to show this document and reveal the man whom he named as being in the pay of the Liberal Party.

DEMAND PROOFS
"We are determined to find out just what Mr. Pooley means and to whom he refers in his charges," P. C. Elliott, president of the Conservative Association, stated. "Mr. Pooley must produce the proof of his statements, for he cannot besmirch the name of the good, old-time Conservatives of Victoria in this way unless he has complete proof of his charges. We intend to get to the bottom of this matter."

NOT A CONSERVATIVE?
Mr. Elliott said he thought he knew the name on the cheque in question, but wanted to confirm it. If this information were accurate, he said, the man involved in the Pooley charge was

CANADA'S POPULARITY IN EUROPE GROWING SAYS EX-OFFICIAL

Sir Herbert Ames Visits B.C.
Coast; Gives Interview in
Vancouver

Vancouver, Nov. 30.—For the next ten years the work of the League of Nations will be concentrated on two great problems, namely, disarmament and promotion of economic co-operation, according to Sir Herbert Ames, former financial director of the League secretariat, who arrived in this city to-day.

Sir Herbert lectured at the University of British Columbia at 11 a.m. "Canada is well known and liked in Europe as a result of its participation in the work of the League," said Sir Herbert in an interview. "She has shown herself an important member of the organization, and through the work of her able representatives she gained a seat in the Council."

The League of Nations, he continued, had developed from a feeble experiment to an organization which had become a great force in maintaining peace in Europe and in speeding the work of European rehabilitation.

COUNTRIES AIDED
"The League of Nations saved Austria and Hungary from financial bankruptcy and it has been of great assistance to Greece and Bulgaria," he said.

"At its recent economic conference it obtained the signatures of nineteen nations to an agreement for the elimination of tariffs de combat, or tariff barriers erected as punishments or without scientific foundation."

Negro Lynched By Mob in Kentucky

Jenkins, Ky., Nov. 30.—Roaring flames mounting from the top of Cumberland Mountain signalled the death of Leonard Woods, negro, who was lynched by a mob of more than 200 men early to-day.

Woods, arrested to the killing of Marshall Deslon, thirty-five, mine foreman for the Elkton Coal Company at Fleming, Ky., was shot to death as he faced a half-circle of rifles and his body was burned on an improvised platform.

NEW BOARD NAMED FOR WAGE LAW

E. D. Perry and Harry Wood
to Apply Statute to Catering
Business

Will Extend Scope of Act
After Careful Investigation;
To Start Soon

E. D. Perry, prominent Vancouver restaurant operator, and Harry Wood, business agent of the Cooks and Waiters' Union, were appointed to-day to act with J. D. McNeven, Deputy Minister of Labor, as a new board in charge of the enforcement of the Male Minimum Wage Act. Mr. McNeven as permanent chairman of the board, will call his new colleagues into conference during the next few days to commence applying the minimum wage law to catering operations in British Columbia. A minimum wage for all men employed in this business will be fixed after careful investigation, just as a forty-cent-an-hour minimum was set in the lumber industry.

GRADUAL EXTENSION
Appointment of Mr. Perry and Mr. Wood, who are both Vancouver men, is in line with the policy recommended by the first board appointed under the minimum wage law, consisting of Mr. McNeven, T. P. Paterson, representing employers, and F. V. Foster, representing employees. This board applied the law to the lumber industry and then resigned after completing its work, with the recommendation that it be replaced by men thoroughly familiar with the next field of industry to be brought under the statute.

As the catering business was selected for their next step two men closely in touch with these operations were named. Mr. Perry is one of the best

BROKERS' BOOKS SEIZED BY POLICE IN VANCOUVER

Papers of C. P. Porter & Co.
Examined, But no Arrests
Made by Constables

Vancouver, Nov. 30.—The offices of C. P. Porter & Company Limited, brokers, Hastings Street West, were raided by Vancouver police officers at 11 a.m. to-day. All books and documents in the place were seized and transferred to police headquarters, where they will be examined.

No arrests were made in connection with the raid.

The seizure followed recent investigations into the operations of several "brokerage" firms in Vancouver. A conference of the police commissioners and officials on the subject was held last Monday.

An early arrest is expected in the case of Stone & Company Limited, whose offices were raided last Friday, according to the police. It is indicated further information has been received regarding the operations of the firm.

TOO MANY MEN IN VERNON FOR TOTAL OF WORK

Vernon, Nov. 30.—Announcement of intention to develop hydro-electric power at Shuswap Falls has attracted hundreds of men to this city seeking winter employment. W. B. Higgins, mayor of the provincial labor bureau, announced that already he has an enrolment of 250 men seeking this sort of work. As it is the intention of the West Canadian Hydro-electric Company to employ residents of Vernon and its district on this work, the flocking in of others from outside points is likely to result in their being stranded in this city, it is said.

SEAMAN SUES FOR \$25,000

New Orleans, La., Nov. 30.—An order was issued here by Judge William H. Byrnes in civil district court for the seizure of the United States Steamship Point Lobos, owned by the Swayne & Hoyt Company of San Francisco, after Michael Martin, a seaman, had filed suit for \$25,000 for injuries alleged received while the vessel was at sea.

ELEVEN IN FIELD FOR COUNCIL SEATS

Nominations Close 2 p.m.
To-morrow at City Hall

All Candidates Invited to
Make Use of Radio Appeal
Saturday

Eleven candidates will be in the field for council seats at the civic elections. William Henry Sargent, 1615 Vining Street, took out nomination papers at the City Hall to-day. Mr. Sargent is proposed by Louise Margison, and seconded by Charles E. Searley.

Other nomination papers returned in preparation for the official close of nominations at 2 p.m. Thursday, include for the council division, Miss Susan Crease, proposed by J. W. Maynard; Alderman R. A. C. Dewar, proposed by James Forman and seconded by J. W. Maynard; Alderman John Harvey, proposed by W. A. Luney and seconded by Archie Muir; P. R. Leighton, proposed by Lindley Crease, K.C. and seconded by H. A. Maclean; K.C. Alderman J. L. Mara, proposed by J. E. Wilson and seconded by A. R. Wolfenden; Alderman William Marshall, proposed by J. W. Maynard and seconded by R. B. H. Price; J. A. Shanks, proposed by Roland H. Powell and seconded by John A. Dames; Henry A. Wills, proposed by W. T. Strath and J. A. Worthington, proposed by James Fletcher and seconded by J. A. Scott.

PERMANENT WAR PENSIONS NOW IN FORCE

Abolition of Yearly Medical
Examinations For 20,000
Men

The establishment of permanent pensions for 20,000 men receiving pensions for disabilities incurred while serving with the Canadian Expeditionary Force in the Great War and the abolition of periodical medical examinations for that number of pensioners is announced in a dispatch from Ottawa. Medical examinations will continue to be held for those not included in the permanent pension category or for pensioners classed permanent who seek a re-examination.

The policy, which is to be put into force in connection with the re-organization of the Department of Soldier Civil Re-establishment, meets representations which ex-service men's organizations have been presenting to the department for several years.

EXAMINER IN EACH DISTRICT
Another intention is to give the Pension Board a medical examiner of its own in each medical district. Friction was caused some years ago and since, owing to the medical officers of the pensions branch being taken under the S.C.R.

Two or three higher ups of the department and a lesser number of subordinates will be affected by the change at headquarters, but it was indicated to-day that they will likely be absorbed into the staffs of other departments, which need such service. The field staff will be reduced by doing away with the annual examination of the class of cases referred to.

For school trusteeships, Trustees J. L. Beckwith and A. C. Pike have announced their intention to run in addition to those already named.

The nominations will take place between 12 noon and 2 p.m. Thursday, when M. P. Hunter, City Clerk and returning officer for the polls, will be at the City Council Chamber.

All candidates who are contesting a seat in the elections, polling in which will take place December 8, are invited to speak over radio station CFC on Saturday evening when three minutes will be devoted to each in a programme of addresses to open at 6:30 p.m. G. W. Deville made the arrangements and will extend a general invitation to all candidates to be heard on that occasion.

LIQUOR FOR SOLDIERS

Toronto, Nov. 30.—The military forces in Ontario have won a victory without bloodshed and even before hostilities commenced. D. H. Hanna, chairman of the Ontario Liquor Control Board, announced to-day that a special permit had been granted the military forces at Kingston enabling the consumption of spirits, wines and beers in the messes and canteens.

STOCKS AT NEW YORK SOAR UP IN PRICE

New York, Nov. 30.—Bear traders scrambled to cover their commitments in the final hour on the Stock Exchange here to-day when an enormous rush to buy orders sent scores of stocks bounding upward \$7 to \$10 a share or more. The buying movement was most pronounced among the popular industrials and investment rail issues.

Repeats Success of Last
Year With Oats, But Mon-
tana Man Wins Wheat

Chicago, Nov. 30.—Herman Trelle of Wembley, in the Peace River district of Alberta, was named the oats growing champion of North America to-day when his exhibit of Victory oats was adjudged the best at the International Livestock Exposition here.

L. E. Peterson of Victor, Montana, who entered an exhibit of early white oats, was declared reserve champion. Trelle's winning sample weighed forty-nine and six-tenths pounds to the bushel, the heaviest ever exhibited at the annual show here. He also scored high on uniformity and color.

The oats on which he was given the prize grew 123 bushels to the acre. It was the sixth time in the last eight years at the show here that Canada had carried off top honors in oats. The climax was reached last year when Trelle captured both the wheat and oats growing championships. This year he lost the wheat championship to C. Edson Smith of Corvallis, Montana.

"Choice V.I." entered by the University of Alberta, won a ribbon this afternoon when he was given second place for senior yearling steers of all breeds in the John Clay & Company contest for college and experimental fat stock.

TRANSPACIFIC PLANE FLIGHT EXPECTED END AT LULU ISLAND

Aviation Expert Recommends
Japanese Airmen Next Year
Afloat in Vancouver District

Vancouver, Nov. 30.—Officials of the Imperial Aeronautical Association of Japan have been cabled a recommendation by Y. Miawa, air attaché of the Japanese Embassy at Washington, that Vancouver be chosen as the terminus of the Japanese transpacific flight which will be attempted next year.

Mr. Miawa notified K. Iwanga, consular attaché here, that in his opinion Lulu Island was a better field than Sand Point, the United States army airport at Seattle, for the purpose of the flight from Japan, and that he has cabled the Japanese Government to that effect.

MACHINES ARE LARGE
Mr. Miawa pointed out the Sand Point field was too narrow for the large machines now under construction in Japan. "Trees about the field also constituted a disadvantage."

It is expected at the consulate here that the recommendation will be acted upon, and that Vancouver will be chosen for the end of the flight.

Mr. Iwanga said three machines designed for a crew of four men each were now being constructed.

FLOODS IN SOUTHERN PART OF ENGLAND

Many Residents Along Brent
River Forced From Homes
During Heavy Rain

London, Nov. 30.—Serious floods in many places, especially in the low country west of London, have followed a heavy twenty-four-hour rain which accompanied yesterday's black fog over the city. The rainfall exceeded half of the average for the whole of November.

The little river Brent, which overflowed during the day, burst its banks early this morning, flooding scores of houses near Greenford. Police entered the district and warned the inhabitants who had to leave their homes hastily to save what they could. Miles of the district are under water, and the roads have been cut off. The electrical plants were flooded, cutting off light and increasing the difficulties of the area.

WAGE INCREASE FOR STREET CAR MEN IN VICTORIA IS URGED

Conciliation Board Recom-

Men's Request For 10 Per
Cent Raise in Vancouver
Not Upheld

Vancouver, Nov. 30.—British Columbia Electric Railway Company motormen and conductors have failed to obtain the support of the conciliation board in their demand for an increase of wages, approximating ten per cent.

By a majority report the board has intimated to the Federal Minister of Labor that the three-year agreement which terminated September 30 should be renewed by the company and its employees for another three-year term with certain minor changes.

The report was signed by the chairman, Mr. Justice D. A. McDonald, and A. G. McCandless.

It appears probable the third member of the board, Percy Bengough, representing the men, will submit a minority report.

The majority of the board was also unable to recognize as valid the claim of the employees for a two-week annual holiday with pay, holding it was contrary to principle to compare the rate of employees working at a stipulated monthly salary and required to work overtime without pay with men working by the hour and paid for every hour of overtime.

SUNDAY PAY
The majority further reported that overtime rates of pay for Sunday were also contrary to principle in the nature of the work, but having been recognized by both parties in previous years the board felt it should not suggest a change.

While the major demand for a wage scale increase by the men was not supported, the majority recommended that motormen and conductors more than three years in the service of the company should be paid one cent an hour more than beginners. It also recommended an increase of one cent an hour in the wages of city track workers and an increase of a cent and a half in the rate of interurban track workers.

LIQUOR ACT FINE IS \$500

Vancouver, Nov. 30.—W. S. McCarter of the Canadian Scottish Express Limited pleaded guilty to violation of the Liquor Act and was fined \$500 in police court here to-day. Payment of the fine was suspended until to-morrow.

MANSLAUGHTER CHARGE HEARD

Vancouver, Nov. 30.—Refusing to express an opinion whether William L. Goodlett, Dominion fish hatchery employee at Rivers Inlet, had been negligent when he shot and killed Teddy Roosevelt, an Indian, at Quapp Creek, October 19 in mistake for a bear, Magistrate H. O. Alexander in district police court announced he would commit the accused man for trial on a manslaughter charge.

HAZING IS STAMPED OUT AT ONTARIO COLLEGE AT GUELPH

Toronto, Nov. 30.—Hazing or initiation practices at the Ontario Agricultural College at Guelph have been stamped out to-day. The Minister of Agriculture of Ontario, it was announced to-day, The Minister's action was prompted by the recent hazing of Edward Beudon, a young English student at the institution, who was im-

prisoned in a pig crate and "sold" in front of a crowd in the streets of the city a few days ago.

Mr. Martin takes the ground that hazing is, in effect, little short of mob law in a mild form, and states that students who participate in any future affairs of this kind may be immediately expelled from the college.

COLQUITZ WOMAN PRAISES GREAT NEW MEDICINE

Says It Is What She Has Been Looking For—Thousands Are Using It With Amazing Results.

Hundreds in Victoria and vicinity are now using a wonderful medicine called "Husky," which relieves stomach, liver, kidney and bowel ailments and strengthens the entire system, and that it is a medicine of surpassing merit is well indicated by the way its fame is rapidly spreading throughout the country.

Mrs. Edith Annie Taylor, Newberry Street, Colquitz, is using Husky, and she says there is no doubt about it being a great medicine. Telling of her experience with Husky she said:

"Before I started using Husky I was suffering continually from indigestion. All food disagreed, and I was always having heavy, dull headaches. While looking for something to relieve this condition I heard about Husky and gave it a trial. From the first bottle I began getting relief and I consider Husky a wonderful medicine for relieving indigestion, toning up the system and making one feel better in general. I think that I know a good medicine as I had tried many medicines without any results before I turned to Husky."

MRS. IRENE TODD

ISLAND DEVELOPMENT

This Island is going ahead with leaps and bounds, Mr. Pattullo declared, referring to the big new plants that are going up on the Island. At Campbell River, \$68,000 had been spent this year in preliminary work and the company had another year in which to start construction, which would involve expenditures of several millions.

He also referred to the developments of the International Harvester Company involving many millions at Beaver Cove and those at Stamp Falls.

As regards agricultural increase in the Province as a whole, Mr. Pattullo said that dairy production had increased three times in the last ten years and livestock doubled.

Opportunities for the young men of this country were being opened in all the development work in water power, timber, fisheries, and mines, Mr. Pattullo continued.

"Dr. Tolmie has been asleep; he doesn't know what is going on," Mr. Pattullo added amid applause and laughter.

Mr. Pattullo also took up Dr. Tolmie's talk about Canadians going to United States and quoted to show that when Dr. Tolmie was Minister of Agriculture under Meighen, 750,000 Canadians left for United States. Now, however, people are coming into this country.

"If you look up statistics, you will find that Canada is increasing in proportion to population as fast as is the United States and a little bit more so," Mr. Pattullo said.

CONFIDENCE IN PARTY

"There seems to have been a wonderful revival of confidence in the Liberal Party in this Province," Mr. Pattullo went on. "This Government has been in power for eleven years, and in the natural course of events every government makes some enemies. Within the next two years we will have to appeal to the people of this country in an election, and we will do so. I may say frankly, with some confidence than some time ago."

"We believe the policies of the Government, social and financial, are being better understood, and that we have been trying to play fair with friend and foe alike."

"We are going along, encouraging capital to come in, trying to help labor and the whole body of the people."

"When we go to the polls we are not going to ask any favor of the opposition."

"I am an ardent admirer of the sentiment of the people of Victoria. I will say that Victoria is going back to the Liberal column, if not four, then at least three strong," Mr. Pattullo said.

"The Liberal Government has been going along for eleven years and still going strong. But the other side, what do you see of them? They are not handling their tomahawks and beating tom-toms, but they are out scalping themselves."

"The Conservative Party to-day has no policy. They were squabbling among themselves at Kamloops a year ago, and they are still squabbling."

DISBURSING TO CONSERVATIVES

Hon. W. H. Sutherland declared that in the newspapers recently the Conservatives seemed to be disturbed and distressed, and there appeared to be reason for this from the news of such Liberal meetings as the one before him.

Among other things, Dr. Sutherland enumerated as disturbing to the Conservatives were the improved financial position of the B.C. Government, as exemplified by B.C. bonds selling higher than those of other parts of Canada, and the social legislation of the Liberal Government has to its record.

As for the problem of the B.C. Public Works Department, Dr. Sutherland said that the roads and trails throughout the Province, if placed end to end, would encircle the globe and have enough over to duplicate the roads in the city of Victoria.

WEST COAST ROAD

Policy with regard to Vancouver Island, he said, has been first, to put present roads in shape, as exemplified by the improvements in the Island Highway; second, to go ahead with the

West Coast road, to complete the final surveys for which a party was sent out last week.

"There were 350,000 persons who visited this Island last year," Dr. Sutherland went on. "You can see what an item it would be if those persons were induced to stay one day longer on this Island in the larger amount of money spent here. The West Coast Road will be a great asset of Victoria."

In the last few years the Government has built 4,000 miles of new roads, he said. He explained that the cost of this was all borne by the capitalized motor and gasoline tax, and the highway loans capitalizing these taxes were only issued in keeping with the increase in these taxes. He claimed the expenditures on good roads were justified by the lessening of motor operation cost to private and business

owners as well as in opening up the country.

President W. Kinsman, who presided, declared that officers of Ward Three were much elated at the large turnout which completely filled the hall. He said that it was the largest ward meeting that had been held, with 550 persons seated in the body of the hall and a number standing at the rear unable to get seats.

On the platform with the president and the speakers were Vice-President C. A. Horn, Mrs. A. D. Harrison, secretary C. J. V. Spratt, president Victoria Liberal Association; Charles R. Bishop, secretary Victoria Liberal Association; W. M. Ivel, Carew Martin and Fred Mellor, Mrs. Stuart Henderson and Mrs. Young.

Officers of Ward Three were re-elected by acclamation as follows: President—W. Kinsman.

THORNTON TO LEAVE MEXICO NEXT WEEK

C.N.R. Head is One of First to Speak Over Mexico-Canada Telephone

Toronto, Nov. 30.—The statement of Sir Henry Thornton, president of the Canadian National Railway, that he will leave Mexico City December 7 for Canada was a feature of the telephone conversation between Canadian financial leaders and officials of their respective companies in Mexico City, which took place to-day when Canada was "hooked up" with Mexico through the medium of the telephone over a 3,807-mile circuit.

Sir Henry's statement was interesting in view of the recent rumors that he might assume charge of the Mexican National Railways.

Mexico City, Nov. 30.—Long distance telephone service between Mexico and Canada by the companies of the Bell telephone system was inaugurated this afternoon. Numerous conversations took place between Mexico City, Montreal and Toronto between the heads of prominent Canadian concerns operating in Mexico, officials of the telephone companies and others, although no officials of either government participated.

Communication was clear and distinct. Among those who talked from Mexico City was Sir Henry Thornton, president of the Canadian National Railway, who is in Mexico to aid the Mexican Government in improving its railway system.

Vice-President Repp of the Mexican Telephone Company, who presided over the ceremonies, said the next big telephone accomplishment in prospect was an Argentine-Chilean transatlantic service, after which he hoped some time in the future it would be possible to connect North and South America.

"Did the manager say he'd let you play a part?"

"Yes, he said he'd rather have me play apart from his company than with it."

OLMSTED STARTS HIS LABORS IN PRISON

Beginning Term at Peniten-
tiary in Washington, He Says
Crime Does Not Pay

Seattle, Nov. 30.—Convict No. 6538
sent through "the mill" at the federal
penitentiary at McNeil Island, Wash-
ington, to-day. His hair was clipped
close and he was photographed and
finger-printed. His physical descrip-
tion, minute in detail, was entered
upon the prison register.

Ray Olmsted, former Seattle police
lieutenant, who became the Pacific
Northwest "rum baron," has begun his
prison term. For four years, less time
off for good behavior, he will be just
No. 6538.

IS GIVEN WORK
Olmsted's first prison duties will be
light, but designed to harden him
physically, according to Warden Finch
R. Archer. Then he will be assigned
to the handling of concrete in the con-
struction of a new prison wing.

Jerry Finch, Seattle attorney, con-
victed as an associate of Olmsted in
the liquor syndicate, which is said to
have operated from British Columbia
to the Mexican border, will follow his
chief to prison to-morrow, going to the
island with a batch of prisoners.
Deputy Marshall made a "special" with
Olmsted yesterday, arriving with him
at the prison at 6:45 p.m.

FINE DEMANDED
At the end of Olmsted's prison term,
he will have to pay a fine of \$8,000,
or serve thirty days additional and
take a pauper's oath. Although Olm-
sted admitted he made thousands of
dollars in his illegal activities, he is
said to be practically penniless.

Olmsted entered the penitentiary
last evening after bidding farewell to
his pretty young wife, Elsie.

CRIME DOES NOT PAY
As he started his prison life, Olmsted
said he had no ill-feeling toward
Federal Judge Jeremiah Neterer, who
imposed the sentence.

"Run running does not cannot
pay," he declared.

NEW BORDER RULES OF THE U.S. PLEASE OTTAWA OFFICIALS

No Hardships For Foreign-
born Canadian Residents
Working in U.S. Towns

Ottawa, Nov. 30.—Canadian Govern-
ment officials to-day expressed great
satisfaction with the action of the
United States Government in extend-
ing the time for foreign-born aliens
residing in Canada to commute daily
across the international boundary and
work on the United States side.

"It is understood," it was officially
stated, "that the new arrangement
will make it possible for approxi-
mately all these concerned for whom
there was difficulty in continuing their
employment in the United States to
obtain the necessary quota visas within
the next three or four months—that is,
provided they have already registered
for visas."

INJUNCTION REFUSED
Buffalo, N.Y., Nov. 30.—The first at-
tempt of an alien to fight the United
States border immigration ruling was
lost to-day when Judge Hazel, in dis-
trict court here, dismissed an applica-
tion for a temporary injunction to re-
strain immigration officers from en-
forcing the ruling.

The injunction was sought in behalf
of James Kemp of Niagara Falls,
Ontario, who is owner of a business
establishment in Niagara Falls, N.Y.
Judge Hazel, commenting on the ac-
tion, advised "Kemp to submit to ar-
rest for illegal entry across the Niagara
River," and then apply for a writ of
habeas corpus in order that his action
might be brought before the district
court.

The new immigration ruling, effective
to-morrow, provides among other
things that native-born Canadians who
commute to this country must have
visas and pay a head tax of \$5.

The truth hurts, and so would you
if you were stretched as much.

NEW CHURCH CHIMES TESTED YESTERDAY

Fine Tower Chimes Installed
in St. Andrew's Presby-
terian Church

The beautiful notes of the "West-
minster Chimes" pealing out from the
belfry attracted many passers-by in the
vicinity of St. Andrew's Presbyterian
Church yesterday afternoon, when
tests were made of the recently in-
stalled tower chimes. The chimes were
presented by an anonymous donor to
commemorate the appointment of Rev.
W. L. Clay, D.D., the pastor, as Moder-
ator of the General Assembly of the
Presbyterian Church in Canada, and
their formal dedication will be waived
until the return of Dr. Clay from the
East.

The new tower chimes were made by
the J. C. Deason Company of Chicago,
and they will mark the hours, half-
hours and quarters, being electrically
operated by a clock or from a keyboard
beside the organ console. The chimes
are made of an exceptionally fine qual-
ity of bell metal, and like cast bells,
their form and method of construction
make possible extreme accuracy of
tuning and even intonation.

Yesterday's test revealed the beauti-
ful tones of the new chimes, and their
carrying capacity and tonal characteris-
tics throughout the entire register.

RECLAMATION PLANS DELAYED

Nelson, B.C., Nov. 30.—Chances of the
Oreston Reclamation Company for an
immediate and favorable decision by
the International Joint Commission on
its application for permission to re-
claim 8,600 acres of delta lands on the
Kootenay River faded here yesterday
afternoon with the filing of pleadings
by the United States Government, pro-
visionally claiming the reclamation
would be injurious to American inter-
ests and asking for an extension of
time for further pleadings and for
withholding of the final decision for
one year to permit that government to
get topographic and hydrographic data.

These pleadings, produced by Clar-
ence D. Clark, chairman of the United
States section, after all the evidence
was in; had the effect of a bombshell,
for otherwise the prospects for early
action looked promising.

This was after the State of Idaho,
through Reclamation Commissioner G.
W. Carter, admitted it had no opposi-
tion to the application, and after British
Columbia, through J. C. MacDonald,
chief of the water rights
branch had declared its strong sym-
pathy with and support of the applica-
tion.

COUGAR KILLER ARRIVES SEEKING SCALPS IN SOOKE

"Cougar" E. R. Lee, champion
cougar killer of the Coast, arrived
here at noon to-day by automo-
bile from his home at Campbell
River.

He has come to launch war on
wild mountain lions that have ven-
tered down from the hills into
Sooke and have been terrorizing
the whole district.

Lee already has the scalps of
thirty-two mountain lions tied to
his belt. On his arrival at the
Westholme Hotel, he said that be-
fore many days he expected to add
to his belt the scalps of a couple
of lions that are now living high
and seem to have the idea that
they are bosses of the Sooke dis-
trict.

As his companion on this trip,
Lee brought with him, sitting up
in the automobile, an intelligent
young cougar, which he caught
up-Island.

"This young fellow is one scalp
I haven't got yet," Mr. Lee said.
"I would like to see him grow up
with a better disposition than some
of the other lions I have met
have."

The intelligent young cougar is
staying at the Westholme Hotel
with Mr. Lee. When Mr. Lee goes
out for a while, the young lion is
respectfully given a place of promi-
nence in the Government Street
window of the hotel, where this
afternoon he was being lionized
by a street crowd—standing on the
other side of the plate glass.

CROWN APPEALS FOR HEAVIER SENTENCE

Longer Term Sought For Van-
couver Chinese Merchant
on Drug Conviction

Crown counsel and defence counsel
will both appeal against the four-year
sentence and \$1,000 fine imposed by
Mr. Justice W. A. Macdonald at the
Vancouver Assizes on Lim Jim, promi-
nent Vancouver merchant and a resi-
dent of that city for twenty-seven
years. Leave to appeal was granted to-
day.

Jim was sentenced to two four years
terms to run concurrently on charges
of selling opium and having opium in

his possession. He was fined \$500 on
each charge. His Lordship, in passing
sentence, described accused as a whole-
saler in the traffic, and said the sen-
tence would have been heavier but for
a petition for leniency, which bore the
signatures of well-known business men
of Vancouver.

Gordon Wismer and H. E. Wood, for
the Crown, asked leave to appeal the
sentence on the grounds that it was

not severe enough. J. A. Russell asked
leave to appeal the sentence on ac-
count of its severity.

Judgment will be handed down
to-morrow in the appeals of Lore Yip
against a drug conviction, Lee Poan
against a four-year sentence for as-
sault, Russell Stonehouse and William
Pasquale against life sentences and
Angus Nicholson against a four-year
sentence for manslaughter.

BETTER COWS BETTER MILK

In order to bring to you, under the red and white
Carnation label, as fine milk as the world pro-
duces, we are constantly introducing the high milk
producing strain of our blue ribbon "Contented
Cows" into the herds that daily supply milk to the
Carnation Condenseries. In fact, one of the most
famous Holstein herds in all the world is owned by
the Carnation Milk Farms.

In this, as in many other ways, we insure the qual-
ity of Carnation Milk. Insure that it really will add
richness and flavor whenever you use it. For Carna-
tion is just pure, fresh milk—evaporated to double
richness, "homogenized" so that every drop has its
full share of cream. Diluted, it is used in cooking
to give greater smoothness and richness. Undiluted,
it takes the place of cream at one-third the cost of
cream. Order from your grocer several tins or a

THE CASE OF MR. DAVIE

IN A LETTER WHICH APPEARS IN ANOTHER part of this issue Mr. C. F. Davie, M.P.P., of Duncan, challenges the headlines The Times used over an article from a staff correspondent regarding the meeting of the British Columbia Conservative Association in Vancouver. These headlines stated that Dr. Tolmie may throw up the leadership of the party because of the continual discord within its ranks. Our article also declared that "as they assembled for their meeting Conservative leaders frankly admitted that their situation was grave in the extreme, and that many bitter things would be said behind closed doors." Mr. Davie contends that there is no truth in this statement and he challenges us to "mention the name of one leader of the Conservative Party who gave the slightest inducement to that statement."

We can assure Mr. Davie that leading members of the Conservative Party informed The Times representative that there was every prospect of a big row at the Vancouver meeting and that many bitter things would be said behind closed doors. Incidentally, one of them was prominent in Conservative circles when Mr. Davie was playing marbles. As for the headlines in regard to Dr. Tolmie's leadership, they were based upon a quotation from an editorial which appeared in The Vancouver Daily Province while the delegates were in Vancouver. It says in part:

It is none of our business in one sense, what the Conservatives do in their domestic affairs. But it will become everybody's business to-morrow, or next year, and we shall have our share in that business, then, and looking forward to the next election, and as that coming event casts its preliminary shadows, we think the Conservatives would do well to discuss those doubts we have mentioned. It is not fair to Dr. Tolmie to ask him to continue the burden of leadership unless his party really meant what it seemed to say at Kamloops. And it is certainly not carrying out the spirit of what it seemed to say at Kamloops if there is still reason to doubt that Mr. Bowser meant what he said at Kamloops.

Mr. Davie knows or ought to know that The Vancouver Daily Province is the most influential mouth-piece of the Conservative Party on the Mainland. It is in the councils of the party and a dominant factor in the party's welfare. Will Mr. Davie argue that The Province misrepresented the situation?

In a more general way Mr. Davie attempts to prove that there is no discord in the Conservative ranks. Apparently he is not in very close contact with his party. In The Daily Colonist—whose political Conservatism can not be challenged—he there will find the report of the annual meeting of the Conservative Party that was held on the evening of October 6. In that report is a letter from Mr. H. D. Twigg, M.P.P., which, after a reference to an article in The Times, headed: "Bowser Wing Wins Control of Victoria," says in part:

From conversations with some of the officers to be elected at this meeting and judging from their public utterances, and their general conduct in the past, I am forced to the conclusion that The Times article directly states the facts. THERE IS A DE-LIBERATE MOVEMENT ON FOOT TO BRING MR. BOWSER BACK AS POTENTIAL LEADER OF THE PROVINCIAL CONSERVATIVE PARTY, and the posed officers to be elected at this meeting are the prime movers of this effort.

Surely Mr. Davie is not so far out of touch with the affairs of the party to which he belongs as to be unaware of these recent developments. If he still should be of the opinion that all is well within the Conservative ranks, what does he think of this editorial which appeared in The Daily Colonist on the morning of October 6?

Dr. Tolmie should be given every possible assistance and a clean field. Under the circumstances we have noted it becomes the obvious duty of the Conservative Party here to bury all its differences and reorganize on a new basis. The local and Liberal Association found it necessary to do so, and if Victoria is to escape machine politics the same course must be adopted by the Conservatives. AN IMMEDIATE HOUSE-CLEANING IS DESIRABLE AND THE LOCAL ASSOCIATION MIGHT JUST AS WELL KNOW THAT ANY OTHER PROCEDURE, OR THE PERPETUATION OF THE PRESENT CONDITIONS, WILL NOT BE TOLERATED BY THE CONSERVATIVES OF THIS CITY.

Will Mr. Davie suggest that The Colonist did not know what it was talking about when it demanded an immediate house cleaning? We hardly think he will go that far. Then if Mr. Davie will consult the files of The Colonist still further in the month of October, he will find the text of a resolution passed by the Conservative Association of Oak Bay in which Mr. Bowser was called upon to announce his withdrawal from public life. The resolution stated:

We therefore would urge, in order to avoid any further misunderstanding or misrepresentation, that the Hon. W. J. Bowser retire from his valedictory speech made at the Conservative Convention at Kamloops, and that in order to make the situation perfectly clear he should publicly announce that he has no intention and will not seek or accept nomination at the forthcoming election, and also in our opinion he should PERSONALLY REQUEST HIS ADMIRERS TO LOYALLY SUPPORT THE LEADERSHIP OF DR. TOLMIE, BOTH IN WORDS AND DEEDS.

Finally, at last Saturday's gathering in Vancouver, Mr. Pooley said he had a photographic copy of a cheque that had been paid by the Liberals to one Conservative to cause trouble in the party.

Mr. Davie really ought to get into touch with his party in Victoria and Vancouver and find out what is going on. If he were so to post himself, he might possibly be able to undertake the role of a peacemaker

which, obviously, the party sorely needs. The supporters and admirers of Mr. Bowser have declared publicly that they are quite willing and ready to co-operate with and support Dr. Tolmie; but they naturally object to any demand that Mr. Bowser should agree to eliminate himself from public life altogether. They consider such a demand as the height of impertinence. If, therefore, Mr. Davie could persuade these ardent and recalcitrant spirits in the Tolmie faction to modify their terms as far as Mr. Bowser is concerned, much of the trouble no doubt would disappear. Here is Mr. Davie's chance.

RUSSIA GOES THE LIMIT

RUSSIA ATTEMPTED TO ACHIEVE the impossible when her doctrinaires sovietized the country and expected the political millennium. The failure soon became obvious and those at present in control of affairs are making no apologies for their gradual return to something resembling a more democratic form of government. But the country's leaders still seem able to startle the rest of the world with original and extreme ideas. At the opening session of the preparatory disarmament commission at Geneva this morning the Soviet delegation exploded what the newspaper dispatch describes as a "peace bomb." It formally proposed the complete abolition of all land, marine, and air forces, that all weapons and military supplies, means for mechanical warfare and all other material forms of armament be destroyed, and that the system of calling up citizens for military training be discontinued.

We are told that this proposal was received by many delegates from other countries with a smile. It is extreme and probably will not be practical as long as several nations are shaping their foreign and domestic policies towards anything but international harmony. But is it so extreme and so impractical as it may appear at first? Naval, military and aerial equipment in existence at the present time, to say nothing of what is projected, the experiments which are being conducted into new ways of killing people in warfare, is out of all proportion to the needs of the times and obviously constitutes one of the gravest menaces to the peace of the world. Whatever may be said about the Russian proposal, moreover, the fact remains that if the nations are effectively to reduce the dangers of international conflict, one of the most important requisites is a very drastic reduction in every form of armament. The delegates from Moscow, to say the least of it, have given the other delegates something to chew upon.

WHAT OTHER PAPERS SAY

T. B. MACAULAY
From The Montreal Star

Half a century is a long time for any man to serve any country or state. But when that service has been attended by such signal success as has marked the career of Mr. T. B. Macaulay, president of the Sun Life Assurance Company of Canada, it becomes a remarkable achievement. The banquet tendered Mr. Macaulay last night was a tribute to the crowning moment of a lifetime of exceptional effort and triumph. The Sun Life, under the guiding hand of Mr. Macaulay's father, was a sturdy baby. Nurtured by the present president, it has developed into one of the world's greatest insurance organizations. To a very large degree this has been the accomplishment of one man. To-day he sees the result of his life-work, and he is entitled to hold it good. There will be many men in many lands to-day who will join in the hope that he may be long spared to guide the destinies of the company he has led to greatness.

STRAWBERRIES IN NOVEMBER
From The Ottawa Citizen

Seldom, if ever, within the memory of living Canadians has the Dominion enjoyed such a remarkable Summer and Autumn as distinguished the present year. As a witness to the phenomenal weather prevailing throughout Ontario, two crops of small fruits have been picked in many places. From various parts of the Province The Globe has received samples of strawberries, raspberries, blackberries and fragrant flowers picked within recent days in the gardens and orchards of its readers. One man near Toronto writes that he gathered sufficient strawberries to provide seventeen persons with small helpings at dinner.

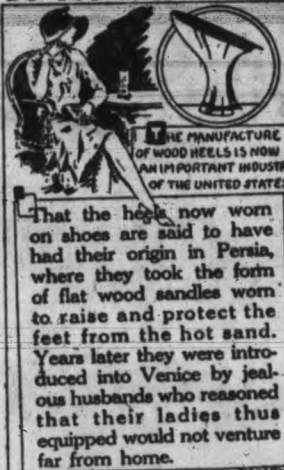

Canada has many things to be thankful for, and not the least of these is the splendid weather with which the eastern part of the country is so signally favored during Summer and Fall. It is this glorious sunshine that never fails to impress the visitor from other lands where rain and fog are so often experienced through a large part of the Summer season. Some persons complain of the rigors of the long Canadian Winter. Minors, however, are not compensated for these discomforts by a long dry spell of magnificent days, such as the Dominion has experienced these past few months.

JOTS FROM GEOGRAPHY

TEMPLE OF THE OLYMPIAN ZEUS is the largest Greek temple known. The majestic edifice is still in ruins in spite of the fact that only fifteen of its Corinthian columns remain standing. The temple was begun in 530 B.C. but was not finished until A.D. 120 by the Roman Emperor Hadrian.

DO YOU KNOW

That the hope now worn on shoes are said to have had their origin in Persia, where they took the form of flat wood sandals worn to raise and protect the feet from the hot sand. Years later they were introduced into Venice by jealous husbands who reasoned that their ladies thus equipped would not venture far from home.

Life's Niceties
Hints On Etiquette

1. In introducing your family to friends should you refer to them formally as "Meet my mother, Mrs. Whitto."
2. How would one introduce her sister to an older woman acquaintance?
3. To a man who is introduced to you.

The Answers

1. No. Your friend already knows your family name.
2. "Mrs. Carver, this is my sister, Ruth."
3. "Mr. Carver, I want you to meet my sister, Ruth. This is Mr. Carver."

CANADA'S FIRST TRANSCONTINENTAL TRAIN

Q. When did Canada's first transcontinental train cross the country?
A. Canada's first transcontinental train, on the Canadian Pacific, crossed the country from coast to coast in 1885, arriving at Port Moody, near Vancouver, on July 4 of that year, taking six days from Montreal. The locomotive that drew the western train, the Countess of Dufferin No. 1, may be seen in front of the C.P.R. station in Winnipeg and looks diminutive beside a modern motor.

MUNICIPAL ELECTIONS

To the Editor:—I have thought much about the forthcoming election for majority contest, and just ask you for a few lines to voice my suggestion.

On so many occasions it has been said, a man is "selfish" who wishes to retain a place too long. This looks the case to me at present.

I would like to see Mr. Joseph B. Clearhouse come out for mayor. Here is a native son, with much experience, and a clever, broad-minded young man.

#RESIDENT FOR THE PAST 42 1/2 YEARS IN VICTORIA.

THE WHITE BEAR AND AVIARY

To the Editor:—If a male cannot be found for the solitary specimen of a white bear it would be far more humane to dispose of her to some zoo or to mercifully destroy her, for a more unhappy existence than her present one it would be hard to find.

The aviary with canaries, doves, etc., is in a spot entirely surrounded by trees where the sun cannot penetrate, and is always in a state of damp. Could there be a more unhealthy and unnatural place for canaries who love the sun.

Let anyone ask the man who looks after these birds and he will say the same, also that many birds are destroyed by the damp.

Let the birds have an open space, as can be seen at any English or continental zoo.

Victoria, Nov. 29, 1927.

A DOUBTING THOMAS

To the Editor:—Everyone who reads The Victoria Daily Times, and those supporting the Liberal Party, particularly, realizes the great campaign work which your paper has carried on for the Liberal Party, in season and out of season. But it surely must occur to everyone, Liberals and all others, that you are not playing the game of truthfulness, whatever other game you may be playing, in connection with your attempt to portray to the people of the Province that a rift exists between two factions of the Conservative Party.

The Victoria Daily Times has a master at work upon its headlines. I hope whoever the gentleman may be, that he recognizes this compliment to his ability to arrest the attention of the reading public. It becomes unfortunate, however, and is not a compliment to the management of The Times, that the headlines are frequently miles and miles apart from the actual truth of the situation which the headlines declare. I am referring now to the headline which appeared on the 26th of November, in which it was proclaimed that Dr. Tolmie may throw up the Tory leadership. Your headline is followed by the statement of The Times that "as they assembled for their meeting Conservative leaders frankly admitted that their situation was grave in the extreme and that many bitter things would be said behind closed doors."

Will you permit a follower of the Conservative Party, who has some knowledge of what is going on in its councils, to state to the editors of The Victoria Daily Times, that there is no truth whatever in that statement of The Times? And, as confirmation of this, I challenge The Times to mention the name of one leader of the Conservative Party who gave the slightest inducement to that statement.

If my challenge is not accepted, then I think that as a daily paper anxious to serve truth and faithfully all classes of the community, you should, in your editorial column, withdraw your statement, and advise your readers there was no foundation for same, and also that your special correspondent at Vancouver was in error when he wired you that there were two rival camps in the Conservative Party, one under Hon. S. F. Tolmie and the other led by W. J. Bowser.

K.C. For the sake of the truth, and such rivalry exists, and there was not a scintilla of it at the meeting in question. Moreover, there could not be, in the face of what Mr. Bowser has repeatedly stated both in the public platform and in private conversation to any who may choose to confer with him, that he acknowledges complete loyalty to our present leader.

Everyone in British Columbia, and the Liberals in particular, know of course, that the name of Simon Fraser Tolmie spells disaster to the Liberal Party at the next general election. And no doubt, the wish was father to the thought when The Times suggested that Dr. Tolmie proposed to throw up the leadership. But, nevertheless, the public is entitled, even in political matters, to receive the truth, and as there was no foundation whatever for the statement of The Times in this connection,

URSUS IN POLITICS

To the Editor:—Arthur Smith, writing in The Times of November 28, refers to the candidate who is featuring the little white bear in his campaign. I agree with Mr. Smith, his reference to the park's condition. In 1925, when I was in office, I endeavored to awaken my ardent colleagues interested to some grant for a bird cage later observed in our principle park, but I could not get any support. Candidly, considering the enormous amount of money we spend in maintaining the park, and the fact that the little white bear is a beautiful sight to see, it was not for the wonderful growing card that Ursus Kermodei has proved to be. I am afraid we would have little, indeed, to attract anybody to Beacon Hill Park.

Also in 1925 I endeavored to have constructed a new bird cage in the park. Three hundred dollars was put in the year's estimates for that purpose. Later the park committee used that \$300 to build a flagpole, promising a larger grant for a bird cage later. In the meanwhile the flagpole has been erected. Now the park committee states that they will erect from the material in the old band stand a bird cage. The new cage was an all metal and concrete structure, because the best authorities agree that wood should not be used at all in the construction of premises used for that purpose. The reasons are obvious.

CHILDREN AND EDUCATION

To the Editor:—Every human being born into the world brings many tendencies and instincts which is the inheritance from the parents of the human race, thousands of years ago. They have also race and family characteristics and capacities inherited from near ancestors. In other words the child is a product of environment, both in its physical and post-natal conditions. The task of the educator or trustee of these children is to find out and discover the proper means to develop and encourage the good tendencies and instincts, and also to direct those which are of real value and worth, and also to eliminate and destroy those tendencies which are unsuited to present day life and conditions.

A few centuries ago ninety-five per cent of the people had no outlet for school training whatever, but the educative process went on and people were probably as well-fitted for the requirements of the life of that day as many of our people are for the life of today.

Our present educational system, which may be divided into "state" or "private," has come to stay, for at least—so we may as well accept it and make the best of it we can.

The civilization of any country can very well be measured by the length of the school span. In Canada the average school life of a child is a little more than six years and yet we are charged as being from fifteen to twenty per cent illiterate. Accepting the fact of the school, we may summarize its purpose under three heads:

(1) To give the child the use of such tools as reading, writing and arithmetic, otherwise known as the three R's.

These are accepted as fundamentals of any system of education.

(2) To teach the coming generation the great heritage they have received from the past as is found in the best literature, art, crafts, music, science and religion. I say religion advisedly as being the necessary element to give a sound basis in character.

(3) To guide the youth in the choice of a vocation and to fit him, through his vocation, to make his greatest possible contribution to the civic life of the community, his home, his country and humanity.

Up to the present time we in this Province have given the children a fairly good grounding in the first two needs. For forgetting the third we have failed to prepare for its highest use, the finest raw material a country possesses, its boys and girls, has been so trained that their contribution to the world by their hands and brain will be as valuable as their natural equipment makes them capable of receiving along the lines of learning as mentioned above.

for the party which has given recognition of women's services, and which has had a Lady Member for some years.

If the Conservative Party had not been so short-sighted in the past there would not be the discontent and disloyalty as is now so evident. The next election will prove the strength of the women's vote, and when that day comes, I am afraid the Conservative Party will go down to defeat once more as they richly deserve.

A LADY VOTER.

YUKON APPOINTMENT

Ottawa, Nov. 30.—The post of Gold Commissioner of the Yukon Territory, which is now vacant, is expected to be filled by promotion within the civil service.

I would like to say there are hundreds of women in the city of Victoria and throughout the province who resent treatment of this kind and who have sufficient knowledge and brains to vote.

YOUR BABY and MINE

By MERTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

YOUNG MOTHER IN NEED OF INFORMATION

Mrs. H. F. N. writes: "I read your column daily and it is a great help. I am a new mother and I am in need of information. I have a baby who is six months old and I am having trouble with his feeding. He seems to be getting fussy and I am not sure what to do. I have tried everything I can think of and he still won't eat. I am very worried and I need your help. Please write back to me as soon as you can. I will be very grateful for your advice."

ANSWER
First of all you need the feeding leaflet, the cod liver oil one, and the one on "thumping" and "colic." The answers to your questions are in those and I shall be happy to send them to you for a self-addressed and stamped envelope.
If you know the baby's present weight you would have some better idea of what is causing him to refuse new foods; and also to wake up five

ARMORIES GAILY DECORATED FOR BIG FAIR AND CIRCUS

City Temple's Four-day Fair Opened To-day; Baby Show To-morrow

With an army of workers wielding hammer and saw all day yesterday, and the ladies of the church hard at work decorating last evening and this morning, the Armories has undergone a complete metamorphosis for the annual City Temple fair and circus, which will be formally opened by His Honor the Lieutenant-Governor and Miss Mackenzie this afternoon.

Bunting and greenery in lavish profusion has been used in the general scheme of decoration, and on every hand the very prettiest-decorated and most attractive display of baby and circus is to be seen. The fair is to be open daily from 2 until 11 p.m. until Saturday evening, and as the old-time circus posters used to state, "there is something doing all the time."

Out of a round of entertainment offered for to-morrow afternoon and evening, the baby show stands pre-eminent. Nearly a hundred babies will enter the contest to decide which is the victor's finest specimen of babyhood, and the fortunate one will receive prizes as follows: Special blue ribbon baby (the best baby of all the prize babies), hand-made shirt, made by Mrs. J. H. Smith; special award for twins (best set), electric toaster, donated by B.C. Electric; first prize boy, under one year, \$5; first prize girl, between one and two, \$5; portrait donated by Foxall's studios; first prize girl, under one, high chair, donated by Mrs. J. H. Smith; second prize girl, between one and two, lady's purse, value \$0.50, donated by W. Duncan; second prize boy, under one year, silver mug, fork and spoon, donated by Mrs. J. H. Smith; second prize girl, between one and two, birthday book, donated by Alderman Litchfield; second prize girl, under one, toy train, donated by Red Cross; third prize girl, between one and two, fancy table centre, donated by Stocker's Limited; third prize boy, under one, toy train, donated by Red Cross; fourth prize girl, between one and two, silver drinking mug, donated by Maynard's Shoe Store.

Widow of Cabinet Minister is Dead

Galt, Ont., Nov. 30.—At the age of 90, Mrs. Margaret McNaught Young, widow of the late Hon. James Young, died at her home here yesterday. While her husband was a minister in Hon. Alexander Mackenzie's Cabinet, Mrs. Young was a social leader in the capital. She always took a great interest in politics. Her husband died in 1913.

New Thought Temple—On Monday the Ladies' Club of the New Thought Temple held a sale of work which was a great success. A social was held in the evening, at which the following sang: Mrs. Bowden, Miss Sneddon, Mr. Dick Sneddon and Dr. A. F. Barton. Mrs. Sneddon and Mrs. Harris were the accompanists. Sneddon's orchestra played for dancing until a late hour.

Garden City W.I.—The annual meeting and election of officers of the Garden City Women's Institute will be held Thursday at 2:30 p.m. in the Marigold Hall.

Y.W.C.A. Welcome Club—The Y.W.C.A. Welcome Club will meet on Thursday. Supper will be served at 6 p.m. Miss Davis will be the speaker of the evening.

CIRCUS PERFORMANCE

6:15—Grand circus performance, direction of Captain Truhand. Circus music by City Temple Band; band programme following circus performance as follows: Selection (Wagner's Works); (Wagner); cornet solo, "Adeste Fideles" (Oray); air varie, "Adeste Fideles" (Round); grand chorus, "Judge Me, O God" (Mendelssohn); march, "Viking" (Tom Foy).

Display and sale of articles on all stalls and exhibits all evening. Refreshments served all evening by the Ladies' Aid and the Hostess' Young Men's Stall.

Reformed Episcopal Bazaar—The schoolroom adjoining the Church of Our Lord, Reformed Episcopal, has been most attractively decorated for the annual Christmas bazaar to be held to-morrow afternoon and evening under the auspices of the guild of the Ladies' Aid. At the many pretty stalls will be found the very things to suit the most fastidious taste and the most modest purse, including home-made delicacies, antiques, novelties and plain articles, as well as guessing contests and a fish pond. Delicious refreshments will be served both afternoon and evening. The bazaar will open at 8 o'clock and remain open throughout the evening.

SLEEPING ON STOMACH
Mrs. C. S. G.
Probably you saw the answer to this same question last week. It is not at all harmful for a baby to sleep on his stomach, with some it is their chosen position.

AUDIENCE THRILLED BY PERFECTION OF MORGANA'S ART

Metropolitan Opera Star Acclaimed Last Evening; Exquisite Voice

"I came, I sang, I conquered." Thus might Miss Morgana paraphrase the famous words of Caesar, for at the Royal Victoria last evening she held her audience spellbound under the thrall of the glorious voice. The prepared programme failed to satisfy her hearers who clamored for more and were generously rewarded, the singer having to give no less than seven encore numbers before the final fall of the curtain.

Coming here to fulfill an engagement with the Ladies' Musical Club for the second of the recitals in the "Artist's" series, Miss Morgana proved indeed to be a great artist. The term is a hackneyed one, but this petite and lovely star of the Metropolitan Opera Company is an artist in the truest sense of the word. Her art is not only in her voice, but in her personality and her exquisite delivery of her art.

From the moment she stepped on to the stage and sang the opening bars of Gluck's "Veni, O Rex Sereus" from La Semiramide, she was at one with her audience. As the limp, velvety notes welled from her throat, the exquisite melody of her art aroused her audience to an enthusiasm which culminated in ovation after ovation.

Her early groups of Italian opera numbers, particularly in the "Carmen" series, have been a great success. Her singing of "Estrellita" from La Semiramide, the pearliness of her coloratura, the pearliness of her trills and runs, the wonderful ease of her production and the crystalline purity of her voice told the tale of a perfect instrument.

But it was in the folk songs of Neapolitan, Sicilian and Mexican origin, that Morgana made her greatest appeal. Her singing of "Estrellita" from La Semiramide, the pearliness of her coloratura, the pearliness of her trills and runs, the wonderful ease of her production and the crystalline purity of her voice told the tale of a perfect instrument.

For her final song, Miss Morgana chose a number of English songs, including among others, "Pierrot," a charming little ballad by Reta Waters; "The Wind," a French number; "The Children of the Moon" (Elinor Remick Warren).

Delighted beyond measure by her impeccable art, the audience sang with her with an ovation at the close of the programme and her generous response to demands for more included, among other numbers, the old favorite, "Bella," sung with haunting sweetness, and "The Sweetest Flower That Grows."

Miss Morgana was supported at the piano by Alice Valden, who shared with the singer in the delightful approval of the audience. Possessing all the attributes of a perfect accompanist, Miss Valden subjugated her art to that of the singer, yet impelling the play and by her charming personality.

In a group of two numbers, "Romance," by La Forge, and the "Pierrot," by Hummel, Miss Morgana found opportunity to still further exemplify her unusual gifts as a pianist, and so delighted her audience that they refused to be satisfied with the encore.

AT THE THEATRES

DOLORES COSTELLO
IN "MILLION BID"
AT PLAYHOUSE NOW

Dolores Costello, starred by Warner Brothers in the great melodrama of the sea, "A Million Bid," is this week at the Playhouse Theatre.

In support of Miss Costello are Warner Oland, dean of character actors; Malcolm McGregor, Betty Hylthe.

Where To Go To-night

Capitol—"The Drop Kick."
Columbia—"The Night Bride."
Dominion—"What Price Glory."
Playhouse—"A Million Bid."
Coliseum—"Everybody's Doing It."
Crystal Garden—Swimming and dancing.

William Demarest, Douglas Gerrard and Gracie Gordon. Michael Curtis directed.

"A Million Bid," a Robert Dillon adaptation of George Cameron's story, is dramatic, giving Miss Costello the most emotional role of her career.

BARBARA KENT IN
COLLEGE PICTURE
SHOWING AT CAPITOL

Barbara Kent, playing opposite Richard Barthelmess in First National's college picture, "The Drop Kick," now at the Capitol Theatre, never aspired to be a juggler, but one day's work in this picture qualified her for the task.

Miss Kent attended a tea party with Barthelmess and other members of the cast. She was told to drop a cup of hot tea on the floor by Director Millard Webb.

Miss Kent's problem was to drop the cup and saucer in such a manner that the saucer would break, the cup would not break and the hot tea would not scald her legs.

After many attempts she succeeded, but a dozen saucers and several cups were broken in the attempt.

"The Drop Kick" is a Ray Rickett production, directed by Millard Webb. The specialties at the Capitol Theatre for this week include Weston and Brenda, piano and violin artists de luxe in "Musical Logues." This is the feature offering on the stage this week. Others appearing at the Capitol are Albert McGillivray, called "The

Caruso of the Air," who appeared before Capitol patrons, some time ago. This accomplished soloist will give another fine rendition of the popular song compositions for which he is so famous both in person and on the radio. The third act introduces diminutive Dora Pasto, a dainty Russian danseuse, in some novelty dance creations.

"THE NIGHT BRIDE"
COLUMBIA SCREEN
DRAMA FOR TO-DAY

Many of the screen stars to-day have a certain motion picture to their credit to which they refer as being "their lucky picture." "The Night Bride," which stars Marie Prevost, now showing at the Columbia Theatre, is classed by Franklin Pangborn as his luckiest picture.

Pangborn is a newcomer to the screen. He recently supported Marie Prevost in "Getting Gertie's Garter," and his work won him instant recognition.

FUN AT THE FRONT
THEME OF COMEDY
DOMINION OFFERING

"What Price Glory" is now at the Dominion Theatre. It is great entertainment, a picture which offers thrills and lots of them. That's the kind of a picture they have made from the play by Maxwell Anderson and Laurence Stallards. "What Price Glory."

Victor McLaglen, as Capt. Flagg, and Dolores Del Rio, as Charmaine, and Edmund Lowe, as Sergt. Quirt, have given the screen three of the greatest characterizations on record.

"What Price Glory" is a story of a conflict told with realism. Recul Walsh, the director of the picture, has kept faith with the authors, for he has translated these humans to the screen, not mere picture puppets, but pulsating men and women who live and breathe, laugh and cry, fight and love—a veritable maelstrom of emotions.

There is the background of the war, but "What Price Glory" emerges on the screen as an epic of laughs behind the lines. It is behind the lines that we meet the hard boiled Capt. Flagg, the picturesque campaigner, Sergt. Quirt, the Beau Brummell of the Marines, and Charmaine, a captivating French dame. She loves both men. To her they are the finest and bravest of warriors, who are ready to fight to death for her favor. About such human, characteristic figures does this dramatic comedy of the screen evolve.

Private Kiper and Private Lipinsky played by Ted McNamara and Sammy Cohen, add warmth and real humor to the production.

Vagabonds to Attend
Firemen's Ball at
Plunkville To-night

The Vagabonds of the National Broadcasting Company, roving over the United States in search of adventures among the people of America, will take you with them to the firemen's ball this evening, from 9 to 10 o'clock. They will tell in vivid detail the adventures that befall them. The Mayor of Plunkville will be heard from, and there will be songs and dances. When the firebell rings the ball will be interrupted long enough for the Plunkville fire brigade to prove its capacity. After the fire the mayor will have hot coffee and sandwiches waiting at the ballroom, and a few wisecrackers mixed in with the crackers and cheese.

The stations broadcasting this programme are KHQ, Spokane; KOMO, Seattle; KFOA, Seattle; KGW, Portland; KGO, Oakland; KPO, San Francisco, and KFI, Los Angeles.

COLLEGIATE YELLS
ECHO IN THEATRE

Victoria College Students Parade City Streets and In-vade Amusement Centres

Two hundred and fifty young college students added a touch of realism to the Capitol Theatre's feature film of college life last night when they attended the performance en masse and punctuated the evening's entertainment with some entertainment of their own. The curtain rang down on the film and the college youths and co-eds burst into a series of yells by way of introduction to four of their number who climbed the path over the footlights and proceeded to give an exhibition of the "dodger walk," a highly technical step, popularized at Craigdarroch.

The students sang some ancient college songs, in which volume of sound made up for any lack of harmony. There was "Billy Magee Magee" and melodies of that nature in their repertoire.

Their cheer leader rallied the voices and the response was enthusiastic, the lusty-lunged chorus spelled out the name of their alma mater, howled some sort of challenge to the world in general and then was silent. Other yells were given.

DOWN-TOWN PARADE

Finally, in a long line, the students left the theatre. They paraded the business district, holding up traffic as their long line weaved along the highways, thoughtless of the rain, and rallying here and there to give vent to their festive mood. They reached the Crystal Garden and paraded through the place, blowing, blowing trumpets and queer whistles, and repeating a few of their fantastic war-cries on the north hall room floor.

It was a fantastic line of March, with multi-colored and variously decorated raincoats dotting the rank, ridiculous overcoats and the queer paraphernalia of head and footgear which characterizes a college crowd.

The students dispersed and went their various ways soon after they left the Crystal Garden.

HAYLEY MORRIS
SUES FOR DIVORCE

Sensational English Case of 1925 Recalled by London Suit

London, Eng., Nov. 30 (C.P.).—Mrs. Hayley Morris, co-defendant with her husband in a sensational trial in 1925, collapsed yesterday, court in the midst of a hearing of a divorce suit filed by Morris from a prison cell recently.

Morris, who is serving a three-year prison term for grave offences against young girls at his country estate, had just finished presenting evidence of his wife's alleged misconduct with Dudley Wood when Mrs. Morris jumped up in back of the courtroom crying: "May I speak?" Then she collapsed in a faint.

An unusual feature of the case was the appearance of Morris in charge of prison wardens to present his testimony. The jury found the misconduct proved, but did not award the damages claimed and the judge ordered the decree nisi withheld at present for technical reasons.

"AMBASSADORS" HOSTS
AT DELIGHTFUL DANCE

Nearly 100 young people were guests of the "Ambassadors" at an informal dance held last evening at the K. of C. Hall. Len Acres and his orchestra were in attendance, their programme of "hits" being responsible in large measure for the success of the affair. Once again the club's refreshments committee excelled itself with the delicious refreshments served at the tastefully decorated tables in the dining-hall. Mesdames Pious and Erith assisted the committee in charge in receiving the guests.

Among those present were: Mr. and Mrs. N. Grant, Mr. and Mrs. C. Burr, Mr. and Mrs. W. McGregor, Mr. and Mrs. A. Vetch, Mr. and Mrs. W. Small schoolboy (to his father)—The world is round, isn't it?

Father—Yes.

Small schoolboy—Then if I wanted to go east, I could get there by going west, couldn't I?

Father—Yes, and you'll be a taxi-cab driver when you grow up.

He: "And why do you think I am such a poor judge of human nature?"

She: "Because you have such a good opinion of yourself."

LADY FOSTER WAS
IN TRAIN DISASTER

Had Narrow Escape in Ontario Wreck; Acted as Interpreter

Kitchener, Ont., Nov. 30.—It developed here yesterday that Lady Foster, wife of Sir George Foster, was one of the passengers on the ill-fated passenger train which was wrecked by a freight train at Dockhill on Sunday afternoon. Questioned, Lady Foster said that she had assisted for some time, giving first aid to the victims of the crash. She had been riding in the second last coach and had been thrown violently to the front of the car when the brakes were applied.

Being able to speak a number of European languages, she acted as interpreter between the wounded and the officials. Lady Foster sustained only bruises.

Diminutive in stature, Miss Valden is veritably the concentrated essence of music. In addition to her ability as an instrumentalist, she possesses unusual promise as a composer, her song, "Ballads of Colleen," sung by Mme. Morgana, being one of the most charming numbers in the singer's English group.

The Ladies Musical Club deserve the sincerest thanks of every music-lover for their enterprise and initiative in once again bringing to Victoria the opportunity of hearing a star who is in the heyday of Metropolitan success.

NEWS IN BRIEF

Helen Campbell, child evangelist closed her meetings at the Variety Theatre on Sunday night.

A mass meeting of the ratepayers of Ward Three will be held in the Gordon Head Hall, Tyndal Avenue on Thursday, December 1, at 8 o'clock for the purpose of receiving and discussing the report of the Vigilance Committee.

Rev. S. Phillips Jones, secretary of the Dominion organization will speak on the horse racing situation throughout Canada at a meeting of the Social Service Council at Vancouver next Wednesday.

The next meeting of the tourist trade group of the Chamber of Commerce will be held at luncheon on Friday at 12.15 in the Chamber of Commerce cafe. Charles St. Barbe will give an address on "Fruit and Flowers for a Summery Fete."

The correct number of jobs buttons in the Hatcherway underwear gird displayed in the windows of Price & Smith Limited is announced as 33,120. The nearest estimates were: 1, W. J. Holman, 33,225; 2, J. D. Williams, 33,427 and 3, J. Siderington, 33,711.

Permit for the construction of the new wing at St. Joseph's Hospital, taken out at the City Hall to-day adds \$360,000 to the building totals of Victoria to date this year. Other permits for the first three days of the week added \$7,350 to the list, which has now passed the \$1,500,000 mark.

Arnold Paynter, a missionary from Ceylon, will give an interesting address on his work and experiences on Thursday evening at 8 p.m. at the Presbyterian Church, Henry Street, Victoria West. Mr. Paynter is the son of a white missionary of Ceylon and a high-caste native mother, and his story promises to be unusually interesting.

The second lecture on "China" in the series on "Problems of the Pacific" will be delivered by Dean Brock at Victoria College to-morrow evening at 8.15 o'clock. This series is intended to spread knowledge of the ideas, manners and customs of Oriental peoples. The lecture is under the auspices of the University Extension Association.

John Dean, candidate for the office of mayor in this city, has invited all candidates for civic offices to take seats on his platform at the Royal Victoria Theatre on Friday evening where they will have an opportunity to address the meeting. Mayor Pendray, candidate for re-election, will not attend the meeting. Mr. Dean announced this morning.

Dr. Arthur F. Barton will give another health talk in the New Thought Temple, 935 Pandora Avenue, at 8 o'clock to-night. The subject will be "A Fool There Was." The lecture will be followed by a free clinic when Dr. Barton will take people from the audience and demonstrate his science of diagnosing disease from observations of the eyes.

At the invitation of the president of the local branch of the Royal Society of St. George, Rev. Dr. A. F. Barton has been arranged to be held in the Conservative Club Rooms, Campbell Building, on Tuesday next. The purpose of the gathering is to stimulate interest in the work of the society. A programme of unusual interest is promised. Some of the artists who will contribute are Miss Eva Hart, Mrs. Georgina Watt, Mrs. Gordon, Mr. Tupperman and others. Refreshments will be served and the programme will commence at 8 p.m.

Mrs. J. P. Hodgson of Vancouver will speak at the Victoria Club, Campbell Building, on Friday evening under the auspices of the local Anti-Vivisection Society. The subject of her address will be the recent international congress on anti-vivisection and animal protection which was held in London. Mrs. Hodgson acting as delegate from British Columbia. Twenty-five countries were represented at this gathering of humane workers. At the suggestion of the local society, Mrs. Hodgson bought two fabric fur coats in England, with a view to furthering the effort to introduce fabric fur in place of real fur, which entails so much suffering to animals. She also procured many beautiful samples of fabric fur which will be shown at Friday's meeting. Mrs. Hodgson is eagerly seeking her in order to find her views on the recent London congress. The meeting on Friday is a public one and all interested persons are invited to be present.

The next meeting of the tourist trade group of the Chamber of Commerce will be held at luncheon on Friday at 12.15 in the Chamber of Commerce cafe. Charles St. Barbe will give an address on "Fruit and Flowers for a Summery Fete."

The correct number of jobs buttons in the Hatcherway underwear gird displayed in the windows of Price & Smith Limited is announced as 33,120. The nearest estimates were: 1, W. J. Holman, 33,225; 2, J. D. Williams, 33,427 and 3, J. Siderington, 33,711.

Permit for the construction of the new wing at St. Joseph's Hospital, taken out at the City Hall to-day adds \$360,000 to the building totals of Victoria to date this year. Other permits for the first three days of the week added \$7,350 to the list, which has now passed the \$1,500,000 mark.

Arnold Paynter, a missionary from Ceylon, will give an interesting address on his work and experiences on Thursday evening at 8 p.m. at the Presbyterian Church, Henry Street, Victoria West. Mr. Paynter is the son of a white missionary of Ceylon and a high-caste native mother, and his story promises to be unusually interesting.

The second lecture on "China" in the series on "Problems of the Pacific" will be delivered by Dean Brock at Victoria College to-morrow evening at 8.15 o'clock. This series is intended to spread knowledge of the ideas, manners and customs of Oriental peoples. The lecture is under the auspices of the University Extension Association.

John Dean, candidate for the office of mayor in this city, has invited all candidates for civic offices to take seats on his platform at the Royal Victoria Theatre on Friday evening where they will have an opportunity to address the meeting. Mayor Pendray, candidate for re-election, will not attend the meeting. Mr. Dean announced this morning.

Dr. Arthur F. Barton will give another health talk in the New Thought Temple, 935 Pandora Avenue, at 8 o'clock to-night. The subject will be "A Fool There Was." The lecture will be followed by a free clinic when Dr. Barton will take people from the audience and demonstrate his science of diagnosing disease from observations of the eyes.

At the invitation of the president of the local branch of the Royal Society of St. George, Rev. Dr. A. F. Barton has been arranged to be held in the Conservative Club Rooms, Campbell Building, on Tuesday next. The purpose of the gathering is to stimulate interest in the work of the society. A programme of unusual interest is promised. Some of the artists who will contribute are Miss Eva Hart, Mrs. Georgina Watt, Mrs. Gordon, Mr. Tupperman and others. Refreshments will be served and the programme will commence at 8 p.m.

FARMERS MOVE TO PRESERVE CATTLE FROM DISEASE HERE

Institutes Recommend Creation of Restricted Area on Vancouver Island

Farmers of Vancouver Island concluded their annual convention under the auspices of Farmers' Institutes here yesterday with the passage of resolutions on agricultural problems for the guidance of the Advisory Board of the Institutes, which will meet in Victoria to-morrow.

Most important among the proposals advanced by the farmers was that Vancouver Island be made a restricted area for the prevention of cattle tuberculosis, like the area created by the Federal Government in the Fraser Valley dairy district. Efforts will be made to interest all dairymen's organizations in this scheme so that a definite proposal may be laid before the Government.

SHEEP FAIR PLANNED

The Department of Agriculture will be asked to assist in the promotion of a sheep fair on the island in 1928. Duncan was recommended as the best place for the proposed show. The department will be asked to protect sheep from predatory animals.

At the request of the Methosin delegation it was decided to recommend stricter enforcement of legislation designed to control dogs in sheep districts and of laws forbidding shooting from highways.

The need of medical attention in sparsely settled districts will be stressed by the Island farmers before the Advisory Board. A study of a scheme of permanent pasturage for cattle also will be urged before the board.

The Government will be asked to state its policy with regards to lands reverting to the Crown for taxes and to improve road, in farming districts.

The Advisory Board will be urged to recommend definite action to curb Oriental penetration in agriculture.

The meeting favored action by which the products of Government-owned farms would be sold at their real value, so that they may offer no unfair competition to private growers.

FIREWATER SPOILS INDIAN'S KEEN EYESIGHT

Harry Dick, Saanich Indian, saw two automobiles approaching him on John Street last night and tried to weave his car between them. But his eyes had failed him and he was hit. There was only one motor car in Harry's way. He hit it.

The cause of his mistake was too much firewater. Chief of Police Fry explained when Harry was charged with driving to the common danger this morning before Magistrate Jay in police court. There was no doubt, he told the Hon. Judge that Harry had had too much to drink.

Harry pleaded guilty to the charge. Asked for an explanation, he said: "I am drunk" and smiled broadly.

Chief Fry explained that the man meant to speak in the past tense. He hurried to reassure His Honor on that point.

Magistrate Jay, after warning the accused, fined him \$25. He commented upon the fact that so many drivers had licenses to operate machines when they could not read warnings or instructions.

There are careful instructions placed on these licenses, said His Honor, "but cannot read them. They cannot even sign their own names. They cannot be expected to know anything about the Motor Act or the regulations."

TORY LEADERS DEMAND POOLEY PRODUCE PROOF

(Continued from page 1)

not an old-time Conservative. This mysterious person, whose identity has been strictly concealed, could in no way be considered a Conservative worker, Mr. Elliott said.

To-day's conference with Mr. Pooley, however, is expected to clear up the question finally and reveal the man accused by the Opposition Leader.

STRONG ACTION EXPECTED

To-day's developments were expected to be preliminary to vigorous action by the Victoria Conservative Association to discipline Mr. Pooley unless he can prove his charges to the satisfaction of the association's officers. As these officers have avowed their support of Mr. Bower, and have openly repudiated the Victoria Conservative members of the Legislature, they are bitterly incensed by the latest slur on their reputations.

SECOND ALLEGATION

This is the second attack on officers of the Conservative Association in the last few weeks. H. D. Twigg, M.P.P., having thrown the association's annual meeting into pandemonium by his charge that the officers were not loyal.

Mr. Pooley's mysterious charge was evidently designed to support Mr. Twigg's statement, and was so interpreted by the Bower wing.

Having repudiated Mr. Twigg's charge and immediately demonstrated their strength by recapturing all offices in the association, friends of Mr. Bower are determined to deal with Mr. Pooley. Unless he can substantiate his allegations the Conservative Association undoubtedly will act officially to repudiate them and to discipline the Conservative House Leader.

Meanwhile Conservatives generally were agog to-day at the prospect of Mr. Pooley's secret information and the name of the accused "old-time Conservative" being revealed for the first time.

SOVIET ASKS ALL LANDS TO ABOLISH THEIR WAR FORCES

(Continued from page 1)

Dr. J. J. Loudon of Holland, who presided, had declared it was clear the difference between the Russian viewpoint and that of the other nations was not in their aims, but in their methods of approach to the problem.

The delegates left the conference hall in earnest discussion of the Soviet plan, which one called a "peace bomb." Another remarked that "the scheme goes farther than the project for the outlawry of war which Senator Borah and other Americans have been advocating, because it entails abolition of the means of making war, the disbanding of armies and navies, the dismantling of armament depots, and the discontinuance of military service."

The delegates also attached importance to one of M. Litvinoff's subsequent utterances that if the Soviet scheme were found too revolutionary the Russians would be ready to participate in any modest plan of disarmament when anything practical was proposed.

WORKING FOR PEACE

Concluding his address, M. Litvinoff, seeking to show how Russia was laboring for peace in a practical manner, told how the Russian Government had sent a note to Lithuania as well as to Poland recently counselling the Kovno government to become reconciled with Poland and put an end to the state of war now technically existing between the countries, a state, "whose continued existence creates great danger for the peace of the Baltic."

When to Suspect Acid Scalp

It isn't age that dulls the hair. Nor frequent washing or curling. It may be due to a condition you can correct in twenty-four hours. Acid Scalp. Neutralize the acid secretions of the scalp, and your hair will have the lovely sheen that makes any hair so attractive. A few drops of Danderine will do this; and as its name implies, Danderine is a scientific dandruff dissolver. Five minutes after Danderine is applied, every particle of dandruff has been dissolved.

Acid scalp should be suspected if your hair is at all stiff or stringy, or won't hold a wave. Another sign—not so easily detected in one's self—is an acid odor to the hair when it is warm, or rather exercise. And for thirty-five cents at any drug store, you can get a bottle of Danderine that will keep your hair soft and sweet and "on its good behavior" for weeks! (Adv.)

AMATEUR HOCKEY LEADERS MEET IN EDMONTON

Annual Gathering Opens Tomorrow With Largest Attendance in History

Contentious Matters to Be Discussed and Lively Discussions Are Expected

Indications for the annual meeting of the Amateur Athletic Union of Canada, which opens tomorrow and continues for three days in Edmonton, point to one of the most largely attended gatherings in the annals of the organization, with the eastern delegates preponderant. Reports are to the effect that three or four delegates will come from the Maritime Provinces, there will be half a dozen at least from Quebec, several from Ontario, Thunder Bay and Manitoba will have strong delegations, and Saskatchewan and British Columbia two representative each. Alberta will have nine in attendance.

Voting strength will not be guided, however, by the actual attendance of delegates as total votes allotted to each branch or allied organization will be cast by respective delegates when a roll call is demanded.

While a large number of resolutions and proposed amendments to the constitution and bylaws of the union are on the agenda, the outstanding controversial subjects appear to be Alberta's proposal dealing with the amateur question and applications for reinstatement of a number of professional lacrosse players. The eastern forces appear to be lining up strongly against any possibility of reinstatement, although in some sections of the maritimes, strong disapproval is expressed of the present methods of coping with the situation.

Frank Boucher, centre player of the New York Rangers and former Vancouver star, heads the goal scorers in the National Hockey League for games up to and including those of last night. Boucher has tallied four goals and has been credited with two assists for a total of six scoring points. Boucher added an assist to his credit last night against Ottawa and this put him two points in front. Behind him with a total of four points are Nelson Stewart of the Maroons, who has bagged four goals; Art Gagne of Canadiens, who has tallied four times; Dutton of Maroons and Finnegan of Ottawa, who have counted three goals and an assist each. The Rangers also hold the record for penalties, Ching Johnson, New York defence man, being the "bad man" this early in the season, with a total of 31 minutes served in the penalty box. He added 8 minutes to his record in last night's game with Ottawa.

THREE GAMES WILL BE PLAYED TO-NIGHT IN CITY BASKETBALL

City League basketball teams will meet in three games to-night at the Centennial gymnasium. The first contest is billed to start at 7:30 o'clock. In the opening fixture the Hudson's Bay will tackle the Garrison. The Bay, who are playing a good game, are favorites to win although the Tommies intend to put a strong line-up on the floor and fight all the way. Playing in the ladies' league the Maple Leafs and Red Wings will meet. Both teams will be out to chalk up their first win of the season. In the third game the Owings will meet the Navy in the men's "C" league.

Stewart Maiden Has To Retire From Golf

Atlanta, Ga., Nov. 30.—Frank Ball, thirty-five, English golfer and cousin of John Ball, famous English linksman, who won seven British amateur crowns and one British open title, has been named to succeed Stewart Maiden, upon whose play Bobby Jones modeled his own, as professional at the Eastlake Country Club here.

Wants To Train

Saint John, N.B., Nov. 30.—Charles L. Gorman, world's amateur skating champion, has announced that he will not represent Canada at the Olympic Games opening at St. Moritz in February unless he can be on the scene in plenty of time to become acclimated and train properly. Gorman said lack of proper training for the Olympic races in 1924, was the cause of his defeat and he does not intend to have history repeat itself in that regard.

Leaders of Canadian Division of N.H.L. Suffer Before American King Pins

Rangers Inflict Another Defeat on Ottawa, While Boston Beat Montreal

The two leaders of the American section clashed with two leaders of the Canadian section in National Hockey League fixtures last night and the Canadians came off second best. Montreal Maroons were humbled by the Boston Bruins four to nothing, while the redoubtable Ottawa Senators fell before the New York Rangers at Ottawa, 2 to 1. In the third game of the night, Pittsburgh suffered its eighth straight defeat at the hands of New York Americans in New York, 1-0. Pittsburgh has yet to win a game. The positions of the teams in both sections is unchanged, though the Rangers and Bruins increased their respective leads.

New York, Nov. 30.—Chabot's stout goal tending and the Rangers' fine defence nullified Ottawa's attack last night. The Senators, who had opponents 2 to 1, but only Alex Smith, sub defence man, could score for Ottawa. Alex Gray, formerly amateur of Port Arthur, tied it up and later Boucher passed to Bill Cook for the deciding score at the end of the second period.

Named Greatest First Baseman

The Baseball Writers' Association in passing judgment upon the many players in the major baseball leagues, have placed their finger of approval on Gehrig by naming him the greatest first baseman in the majors. Gehrig by his superior hitting and great work around the initial sack established himself as the best first-baseman in the American League, displacing such former stars as George Sisler and Joe Judge. Now Gehrig wins the call over all the first basemen in the National League.

Best Baseball Team Is Labelled By Writers

St. Louis, Nov. 30.—A 1927 all-star major league baseball team, based on the votes of 168 members of the Baseball Writers' Association of America, is announced by The Sporting News, a national baseball newspaper, published here. Here is the team:

Left field—George Herman Ruth, Yankees. Centre field—Al Harry Simmons, Athletics. Right field—Paul G. Wanner, Pirates. Third base—Harold Traynor, Pirates. Shortstop—Travis Jackson, Giants. Second base—Rogers Hornsby, Giants. First base—Henry Louis Gehrig, Yankees. Catcher—Charles Leo Hartnett, Cubs. Pitchers—Herbert J. Pennock, Yankees; Charles Root, Cubs, and Theodore A. Lyons, White Sox.

Auerbach no Match For Ace; Berot Wins Over Dix and Vincente in Draw

Los Angeles, Nov. 30.—Ace Hudkins of Nebraska unleashed his famed "wildcat" tactics against Herman Auerbach here last night and won by a technical knockout when the youthful Salt Lake boxer failed to come up for the fifth round. The bout was scheduled to go ten.

Portland, Ore., Nov. 30.—Louis Vincente of Chile and Joe Berot, a lightweight, fought ten rounds to a draw in the main event on the boxing programme here last night. In the semi-main event Omar Wright, 135-pounder of Yakima, won a decision in six rounds from Charley O'Leary, Portland.

Seattle, Nov. 30.—Dode Berot, welterweight of Monroe, Wash., slugged six rounds to a decision over Madison Dix of Bellingham, in the main event of the Crystal pool boxing card here last night. Berot weighed in at 151 and Dix at 146½.

Alekhhine, Born in Moscow 35 Years Ago, Takes Title From Capablanca

Is Recognized as Greatest Performer in Simultaneous Blindfold Play

Buenos Ayres, Nov. 30.—Dr. Alexander Alekhine, thirty-five-year-old Russian-born French citizen, who first gained prominence as a chess expert in 1909, today had realized his life's ambition by winning the world's chess championship. Realizing the hopelessness of his position after eighty-one moves in the thirty-fourth game, Jose R. Capablanca, champion since 1921, resigned the title without resuming play in a game adjourned from Monday night. Alekhine won six games, Capablanca three and twenty-five were drawn.

BORN IN MOSCOW

Alekhhine was born in Moscow in 1892. He has been in the eye of the chess public since 1909 and is considered the greatest performer in simultaneous blindfold performances. After Capablanca won the championship in 1921 from Dr. Leaker, Akiba K. Rubinstein, the Polish champion and Alekhine issued a challenge to him. These two met in 1923 for the opportunity of contesting with Capablanca for the championship, and the Russian won. Alekhine renewed his challenge to the titleholder last year, and the present series began the middle of last September.

MAY ASK CANADA TO ENTER POLO TEAM IN N.Y. TOURNEY

New York, Nov. 30.—Canada will probably be asked to send one or more polo teams here for the conclusion of the indoor season, according to The New York Times. Overtures are being made to Argentina and Canada for entrance of teams in the national championships and possible later international events.

Foresters' Softball Teams Are Guests at Banquet and Dance

As the guests of the lodge the Foresters' softball team, winners of the "C" and "D" section championships of the Victoria Softball League and the Victoria Softball League and the Victoria Softball League, will entertain the members of the Victoria Softball League at a banquet and dance at the A.O.U. Hall last night. Following the supper dancing was enjoyed. The trophies won by the club were on view in the hall, which was decorated for the occasion. E. A. Greenwood, the chairman, referred to the success of the Foresters' team. Fletcher sponsored the toast to "Our club," which was replied to by the president of the softball league, and A. Longley, manager of the team. The toast to "The Press" was proposed by A. Matthews and replied to by F. Thomas.

FIVE PASS TESTS FOR LIFE-SAVING

In an examination held under the auspices of the Victoria Branch of the Royal Life-saving Society at the Crystal Gardens last week the following candidates passed for the proficiency certificate and bronze medal: John Cameron, 79 points; C. T. Ellison, 83; V. Gloima, 79; Mrs. M. Lennan, 77; and W. E. Harrison, 76 points.

Best Catcher

When the baseball writers went over the list of catchers in the major baseball leagues and endeavored to pick the best, they had a tall job. Their selection fell on Hartnett, who with his brains behind the bat and his great hitting, made him the Chicago Cubs such a factor in the race last year. Hartnett got the call for catching over such star performers as Bob O'Farrell, of the St. Louis Cardinals, and the most valuable player in the National League in 1926; and Mickey Cochrane, of the Philadelphia Athletics.

Persistence and bulldog determination are two qualities which have helped Leo Hartnett to the top. Hartnett comes by these two rugged qualities naturally. It was through the persistence of his dad, himself an old catcher, that Hartnett got his chance in professional baseball.

Bud Hartnett was a street car conductor on the Worcester-Woonsocket line in New England. One of Hartnett's daily passengers was Jack Mack, manager of the Worcester line. "Say, I got a boy who'd make a star catcher for you, Mack," this was Hartnett's invariable form of greeting to the Worcester manager. Day after day Hartnett would devote the time between stations to telling Mack what a wonder his young son was.

Finally Mack, provoked rather than interested, summoned. "Well, send the dern kid over and I'll see what he can do."

That was Buster Hartnett's start as a professional. Within a month he was the outstanding star of the Eastern League. His sale to the Cubs followed as a matter of course.

Three Under Suspension While Two Divisions Have No Title-holders

New York, Nov. 30.—The list of world's champions under suspension in New York State grew to three yesterday when Bud Taylor, the prevailing titleholder of the bantamweight realm, was penalized by the State Athletic Commission for inability to box Tony Canzonero here Thursday night. Taylor, who hails from Terre Haute, Ind., reported an injured hand received in training and the suspension was automatic under the commission's rules. Ignacio Fernandez will substitute for Taylor against Canzonero.

Still Another Lawsuit For Tunney to Handle

New York, Nov. 30.—Gene Tunney, world's heavyweight champion, has been served with papers in the suit of Max Hoff, Philadelphia sportsman, the New York American says to-day. Hoff claims that under a contract entered into with Tunney and his manager, Billy Gibson, on the eve of the marine's first battle with Jack Dempsey in Philadelphia, he is entitled to twenty per cent of Tunney's ring earnings.

Montreal To-day

Last Minute News on Stocks and Financial Affairs

(By B.C. Bond Corporation direct wire)
Montreal, Nov. 30.—The Montreal stock market is certainly finishing the month of November in grand style. The demand for securities is excellent and the question of price seems to be secondary. Eight issues entered new high territory this morning, and in most cases the gains were retained to the close. Smelters scored the most important advance in jumping eight points to 272, two points better than its previous record. Dominion Bridge, with a turnover in excess of 8,000 shares, was the most active stock on the list. It opened 1/2 higher at 71 1/2, touched 72 1/2, closing at 72. Steel of Canada was up 1 point at 163. Abitibi and Spanish both advanced to new high records, the former at 142 1/2 and the latter at 142. Wayamack was the big opening feature with a five-point gain to 120. But it later eased off to 117 and closed at 118 for a net point advance. St. Maurice Valley improved 1 point to 78 and closed unchanged at 77. Brompton advanced fractionally to 88 and Price Brothers moved up 2 points to 74.

In the public utilities, Brazilian was still the undisputed leader. Right at the opening the price showed a new high record at 221 and this was later bettered by 1/2 and the final quotation at 220 1/2 showed a net gain of 1 1/2. Winnipeg Electric, selling ex dividend 1 point per share, completely ignored that detail and sold up 1/2 at 102 1/2 for shareholders of record yesterday.

From 74 1/2, Northern Mexico Power climbed to 77. The old reliable, Montreal Power and Shawinigan, both eased off a small fraction.

Marked buoyancy was again shown by stocks on the curb this morning and issues which have recently been recording almost daily high records extended their advance into even higher ground.

FORD STOCK UP OVER 300 POINTS

New York, Nov. 30.—On the announcement of the new car, Ford Motors of Canada on the New York curb, which is the only Ford issue in which there is public trading, sold at 71 1/2 and 68 1/2 to-day. This is up over 300 points from a few days ago.

New York, Nov. 30.—It was a Ford market, following the publication of the first advertising Monday on the new Ford car.

Stocks of companies that have orders from the Detroit manufacturer or expect to get them were taken in hand and used to rally the market from the reaction of the previous day. Tire and rubber companies and the long list of accessory manufacturers reflected the greater buying, and there was even renewed support for other motor stocks on the theory that business held back pending the introduction of the new Ford would not come into the market.

One reason for the decline recently in earnings of Electric Storage Battery was the loss of business incident to the big decrease in Ford production. Electric Storage Battery ordinarily has received a large share of Ford business and it is doubtless true that the corporation is one which will really benefit from a return to large scale output at the Ford plants.

TO-DAY'S GRAIN MARKETS

(By Branson, Brown and Co. Ltd.)

Winnipeg, Nov. 30.—The local wheat market was a steady affair and firm to-day, and after opening fractionally lower due to weakness in Liverpool prices, it closed at a level higher than the previous day. The November future appeared to be pretty well liquidated on the decline of the past week, and to-day witnessed a little short covering. There was no particular pressure on the market, offerings being rather light. The last day of the month saw the cash market in somewhat of a turmoil with half the buyers trying to buy basis November and others trying to buy basis December. Trade not large. There was a big rush late yesterday for wheat to load in boats to clear by midnight to-night. Freight and insurance goes up 2 1/2 to 3 cents on December. No. 1 December and No. 2 Northern 6 3/4 cents over. Three and four wheat were at a deliverable basis, respectively under 1 cent, and December under 1 cent. Some of the toughs were fractionally better. Wheat inspections yesterday were 2,839 cars, of which 1,188 graded common, 1,651 No. 1 and 1,041 No. 2.

NOVEMBER 30

Last Minute News on Stocks and Financial Affairs

Wall Street Journal's Review of To-day's Stock Market Over B.C. Bond Corporation's Direct Wall Street Leased Wire to The Victoria Times

New York, Nov. 30.—The evening edition of The Wall Street Journal says: The turnover was not of record proportions to-day, but the market was notable for the number of issues dealt in. More as a result of this second factor the tape ran behind the market practically all day.

Despite general advances to take profits, which appeared to be extensively followed, the active market leaders maintained their positions exceptionally well.

It was said that a large proportion of the trading came from professionals with outside participation not as large as might have been supposed.

Montgomery Ward continued to be a sensation, and it would seem as if the faster the stock advances the more aggressive the market. The result was that while the stock was quoted as offered at 11 on the exchange to-day, brokers were offering it on the curb outside at 10 1/2.

Ford's were still a speculative stimulus and were said to be responsible for much of the activity in Stewart Warner, Marlin Rockwell and Briggs. Advances from manufacturing centres were to the effect that the Ford contracts were being grossly exaggerated by street rumors. Nevertheless these rumors apparently found a large group of credulous listeners.

Goodrich and Electric Storage Battery made early gains but fell back later. In the afternoon special issues volume advances in steel and General Motors. The late afternoon market interest in General Motors received confirmation by the manner in which the stock advanced. An interesting feature of the late afternoon market was a rapid advance in Canadian Pacific and the execution of large buying orders in Northern Pacific.

GRAIN MARKETING
Winnipeg, Nov. 30.—Grain marketings yesterday were far in advance of the amount hauled to elevators on the same day last year. The head of the lakes shows 20,812,000 bushels in storage there with 2,630,000 bushels moved East by boat. Canadian Pacific moved 1,214 cars east from Winnipeg yesterday. Deliveries to Fort William were 1,133 cars and 1,398 loaded at Lake Head.

Vancouver's storage is up a bit with 5,559,686 bushels in store. Yesterday 241,104 bushels were reported in transit by water and eighty-five cars en route to the coast from Calgary.

CURB MARKET SEATS CLIMB TO \$60,000
New York, Nov. 30.—High records for value of membership on the New York curb market were established twice to-day in quick succession. A new record of \$60,000 followed one at \$55,000. The former high record had been \$45,000, set a week or two ago.

Louis Franchise Jr., bought the seat of the late Belmont A. Rowe for \$55,000 early in the day and shortly after announcement was made that the membership of Belmont A. Rowe had been sold to George Pignero at an advance of \$5,000 over that figure.

WALL STREET To-day

Last Minute News on Stocks and Financial Affairs

Wall Street Journal's Review of To-day's Stock Market Over B.C. Bond Corporation's Direct Wall Street Leased Wire to The Victoria Times

New York, Nov. 30.—The evening edition of The Wall Street Journal says: The turnover was not of record proportions to-day, but the market was notable for the number of issues dealt in. More as a result of this second factor the tape ran behind the market practically all day.

Despite general advances to take profits, which appeared to be extensively followed, the active market leaders maintained their positions exceptionally well.

It was said that a large proportion of the trading came from professionals with outside participation not as large as might have been supposed.

Montgomery Ward continued to be a sensation, and it would seem as if the faster the stock advances the more aggressive the market. The result was that while the stock was quoted as offered at 11 on the exchange to-day, brokers were offering it on the curb outside at 10 1/2.

Ford's were still a speculative stimulus and were said to be responsible for much of the activity in Stewart Warner, Marlin Rockwell and Briggs. Advances from manufacturing centres were to the effect that the Ford contracts were being grossly exaggerated by street rumors. Nevertheless these rumors apparently found a large group of credulous listeners.

Goodrich and Electric Storage Battery made early gains but fell back later. In the afternoon special issues volume advances in steel and General Motors. The late afternoon market interest in General Motors received confirmation by the manner in which the stock advanced. An interesting feature of the late afternoon market was a rapid advance in Canadian Pacific and the execution of large buying orders in Northern Pacific.

To-day's Mining Markets

Goldconda Reaches Another New High In Quiet Market

Goldconda provided the only feature to-day on the local market which was quiet after yesterday's uprush led by Rufus and Argentina.

Prices held all along the line both here and in Vancouver, and there were no new highs made except by Goldconda, which climbed again, selling at 87 and 87 1/2 on the exchange here. The stock closed here at a new peak of 36-39.

To-day's rise in Goldconda followed the rise to 87 and 87 1/2 of the stock in the Spokane market as a result of the definite figures now being made available as to ore tonnage by the development work at the mine.

Following the George Copper, the Rufus and Argentina, and the Red Top deals, there is talk now about the possibilities of Terminus, which is the next of the big properties in the Upper Bear. It was learned to-day that the directors of the property have been meeting daily with Harry Heywood, manager of the property, at Allouez, B.C., and that they are now discussing some propositions that have been put before them. That has been the cause of the bidding bids which have come into the market for the stock. The bids, however, have brought out selling orders from long-term holders, who are anxious to cash in on the first opportunity. The result was that while the stock was quoted as offered at 11 on the exchange to-day, brokers were offering it on the curb outside at 10 1/2.

Ford's were still a speculative stimulus and were said to be responsible for much of the activity in Stewart Warner, Marlin Rockwell and Briggs. exclaimed, "Well, mercy me, before we do, we're going to ride around and see some sights."

They all got in their wagon then, and Clowdy pulled them once again. He traveled over hill and dale, and then one Buddy cried, "Why, there's our little cave, right near. I'll bet he tried to bring us here. He's got to pay for doing that. Let's put him back inside."

So, in the cave they put him quick. Thus Clowdy pulled a clever trick.

That's really where he longed to be, with all the Tynmites. He told them all about his trip. No single portion did he skip. And when he'd finished, they agreed he'd seen a lot of sights. Then Scouty said, "I really fear we never will get out of here. The Buddies all have gone away. The situation's grave." Then something thrilled each Tynmite. They gazed up to the entrance light and realized a monstrous hand was reaching in the cave.

To-morrow's Horoscope

THURSDAY, DECEMBER 1, 1927

Conflicting planetary influences are strong to-day, according to astrology, which finds a benefic aspect dominant. The way favors students and all who use the intellect in abstract spec-

ulations. It is friendly to educational institutions. Under this rule of the stars it is wise to be on the lookout for deceit and it is supposed to be easy to fool oneself. Imagination is awakened under this way, which is read as favorable to the planning and starting of big projects. There may be a tendency toward a too sanguine frame of mind, while this configuration prevails, and so action

Involving future conditions should be delayed. This is an auspicious day for reviewing business affairs and for settling old accounts. Bankers and capitalists are well directed at this time which promises much for the coming year. It will be luckier to-day to sign contracts than to begin the carrying out of new agreements. Women should be exceedingly cautious to-day and should postpone de-

cision to business or professional matters. This is read as rather an unlucky rule for love affairs and men should beware of deception. Persons whose birthdate it is may have mysterious and surprising experiences in the coming year. Children born on this day may be endowed with artistic talents, but ethics should be stressed in their training. (Copyright 1927)

"All right," said Clowdy. "I won't run. I'll try to help you have some fun, but let's go back and try and find the other Tynmites." The Buddies laughed. "Ha, ha, he!" Then one

"Skinny" Rundown Folks Gain Weight

Get new weight and strength with YEAST and IRON
Pleasant to take—Quick results—or pay nothing

Why put up with your skinny figure? Why be listless, flat-chested, lacking in strength and vitality, when IRONIZED YEAST can put pounds of graceful flesh on your bones, fill you with energy and make your cheeks glow with healthy color?

It's the Yeast That Builds Weight

IRONIZED YEAST is two tonics in one—weight-building Yeast and strengthening Iron. The yeast is the same used in making malt, and which makes malt so beneficial.

This yeast is treated with iron taken from fresh vegetables—spinach, lettuce and celery. In this form iron is easily assimilated by the body, making rich, red blood and tuning up nerves and muscles.

When Yeast is ironized in this way, it is most effective—for iron is needed to bring out the weight-building values of Yeast. By this formula, IRONIZED YEAST gives you results in half the time required by other yeasts and iron taken separately.

Go to your druggist, get IRONIZED YEAST and begin to enjoy the amazing health benefits

at once. Just a single course treatment gives you pounds of solid flesh (not fat), the blood is cleared of impurities and you get a nice, clear, healthy skin. IRONIZED YEAST comes only in pleasant-tasting tablet form—60 to a bottle. Safe for everybody. Does not upset the stomach or cause gas or bloating.

First treatment gives results—or no money

Get IRONIZED YEAST now. If not satisfied with quick results, money for one bottle will be promptly refunded. It is convenient to buy from the druggist, or send \$1.25 to CANADIAN IRONIZED YEAST CO., Ltd., Fort Erie, Ont., Desk 1297.

ORIENTAL MISSIONS OF UNITED CHURCH ARE PROGRESSIVE

Dr. James Endicott Addresses Large Audience at Metropolitan Church

Moderator of United Church Council Reports on Tour of India, China and Japan

Marking completion of a Canada-wide tour, Rev. James Endicott, D.D., moderator of the United Church Council, last night addressed a large audience at Metropolitan Church, telling of the progress of the United Church in Asia. The speaker described his experiences in India, China and Korea, with highlights on the differences between South China and Manchuria, and illuminating points as to the work of the United Church.

Dr. Endicott reported that missionaries visited, in all countries of the Far East, were greatly rejoiced over the consummation of union. "The missionaries were unanimous and joyfully glad that we had taken the lead in bringing the scattered flock of Christ together," he said, with assurances that the native Christians were even more pleased. "We had dumped this thing, denominationalism, upon them, and they ask 'how can you expect us to win divided as we have been?'" he pointed out.

EYES OF THE WORLD

"I hope that this will give us a fresh idea of the significance of what we have done, to know that all the world is looking at this union we have accomplished," Dr. Endicott said.

In his opinion Asia is quivering with new life, and the general idea that the East stagnates in the past must be abandoned. "It is a thrilling thing, you feel it at all points. Do not think of a flock of more than half the world's population as being inert, think of them as full of life. It is worth watching, Asia," he urged.

Touching upon the bearing political movements have upon religious life, Dr. Endicott declared "if we were truly religious patriots we would realize that every foot of Canada is God's country."

"I come back from this tour with more pride in our Empire and supreme

confidence in the men in London who are doing everything they can to advance justice and honor," he said, amid applause, after telling of conditions in India.

MOVE TO DELHI

Dr. Endicott praised Lord Curzon for foresight, and for having removed the capital of India from Calcutta to Delhi. He pointed out that Calcutta means nothing to the Indian peoples, while Delhi has been a centre of glory for centuries, nothing for Indians a similar status to that occupied by Jerusalem in the hearts of the Jews.

"It was a very brave, great and generous thing for the British to do," he remarked, forecasting that, within the present century, the whole government of India may have devolved into the hands of the Indian peoples, under the British flag.

NORCA PROVINCE

Turning to Korea, Dr. Endicott pointed out that the Japanese have made the land a province of Japan, while giving a government superior to any known native administration of recent centuries. He believed the Japanese officials to be sincerely endeavoring to wisely administer the affairs of Korea in the interest of the people.

A sketch of the wonderful development of Japan in the last fifty years was given by Dr. Endicott, with a review of industrial, military and naval expansion, and an educational policy which claims to have attained a record of less illiteracy than is existent in Canada. "There is a people which has dared to become great. It is a great example to us," he pointed out.

Dr. Endicott gave a review of the religions of the East. Mohammedanism teaches a healthy, hearty belief in God, but is weakened and offset by its militant attitude. He gave a gray picture of the idol worship of Brahmanism and the scores of terrible creeds which only force withholds from sacrifices of blood.

OUTCAST PROBLEM

The five millions of outcasts in India provide a terrific problem, while the treatment of women is a burden involving millions of girls wed when less than twelve years of age, millions of whom become mothers while yet little children. "It is sad to think of a land where a cow is safer than a little child. A cow would be fed when a child would be left to die, not because of cruelty, but because the cow is made sacred by religious teaching," Dr. Endicott said.

A great influx of recruits to Christianity has followed the sending of missionaries to the outcaste peoples, and Dr. Endicott quoted an Indian maharajah as appreciating the uplifting work of these missionaries among the low castes.

CHRISTIANITY IN KOREA

Dr. Endicott declared that, while no native Christian was living in Korea fifty years ago, to-day there are more professing Christians than were living in the whole world at the end of the first century after Christ. This has been accomplished despite the national religious belief that the air is filled with devils. The success of the missionaries is shown by the practice, in many of the larger cities, of holding as many as three crowded services each Sunday morning in buildings as large as the Metropolitan Church.

INDUSTRIAL SLUMS

Japanese industry has created enormous slums, with no way out unless there is a spread of Christianity. Dr. Endicott recalled that England was better prepared to withstand industrial congestion a century ago, yet slums came into being. In his opinion, Japan was unready when the wave of modern industry rolled over her people. He told of the labors of missionaries in the congested districts of the large cities of Japan.

A LIVING WORK

"You can go from Bombay to Calcutta, from South China to Manchuria, from Korea to Japan, and everywhere you will find your missionaries—not men beating the air, but carrying on a living work which grows with amazing speed," he said.

CHANGES IN CHINA

Adverting to the present situation in China, Dr. Endicott remarked "what was good fifty years ago is not good to-day." He urged that none worry about China, declaring "more British are killed every year in Toronto by automobiles than have been killed in all China in the past ten years." He supported a policy of "go slow, do what is right for the Chinese and we will prove to be doing the right thing for ourselves." Dr. Endicott told of Chinese criticisms of the Britishers' air of superiority over upper class educated Chinese. He pointed out that the British in China assert their presence to be for trading purposes, and expressed sympathy with Chinese objections to being treated as inferior peoples.

Dr. Endicott was supported on the platform by the following leaders of the United Church in Victoria: Rev. J. W. Sippell, Rev. W. G. Wilson, Rev. R. W. Lee and Rev. W. A. Guy, who presided.

History Society to Aid City Council in Naming Streets

The Natural History Society of Victoria held its regular monthly meeting in the Pemberton Building on Monday evening with a good attendance of members. A large amount of business was gone through. It was decided to draw the attention of the Victoria City Council and the three councils of the neighboring municipalities to the list of historical names which the Society some time ago submitted for the purpose of renaming some of Victoria's streets, and which the councils are now thinking of doing.

and the mythical origin of the plant, of the Abbey and of the Winter blooming of the plant dealt with.

Urus Kermode, the white bear in Beacon Hill Park, also came in for discussion at Monday's meeting. Whether Ursus was the representative of an extinct race or whether he was the beginning of a new species was debated and left open for further discussion.

The interesting volcanic and fossil rocks in the neighborhood of Albert Head were referred to by a new member.

Luxton

Luxton, Nov. 30.—Mr. and Mrs. A. Page of "Glen Croft," Luxton, were hosts to a number of invited guests at a delightful house party, when progressive five hundred formed part of the evening's entertainment. Prizes were given, the following awards being made: First ladies, Mrs. M. Morrow, first gentlemen, J. Trace, ladies' consolation, Mrs. T. Madders; gentlemen's consolation, J. Scouler. Games were enjoyed and songs were rendered by Richard Meadows, Mr. Trace, Mr. Scouler and J. Anson, while recitations given by Mrs. Hutchison, Mr. Page and Mr. Morrow, were also greatly enjoyed. A hot supper was served by the hostess, assisted by Mrs. Madders. The invited guests were Mr. and Mrs. N. J. Anson, Mr. and Mrs. R. Meadows, Mrs. MacDonald, Mr. and Mrs. T. Madders, Mr. and Mrs. J. Trace, Mr. and Mrs. Morrow, J. Scouler and Mrs. Hutchison.

Mrs. R. Meadows, Jean and Betty, were the week-end guests of Mrs. A. Page, at "Glen Croft."

Mrs. A. Cummings of Winnipeg is visiting her sister, Mrs. Caton at "Green Gate," Glen Lake Road.

The monthly meeting of the Luxton and Happy Valley Women's Institute will be held at the home of Mrs. A. Page on Tuesday, December 6 at 2 o'clock, when it is hoped that all members will make an effort to be present.

DEAN TO GIVE CIVIC PLATFORM

Candidate For Mayoralty Engages Royal Victoria Theatre For To-night

Engaging the Royal Victoria Theatre for the occasion, John Deah, a candidate for mayoralty honors, will outline his platform from the stage of the theatre at a public meeting to-night. Ex-Rear Admiral R. P. Matheson, Esq., will take the chair.

The doors will be thrown open fifteen minutes before the meeting is called to order, opening at 7:30 p.m. to admit the public. Mr. Deah has also arranged meetings in school buildings in the various districts of the city.

The last time the Royal Victoria Theatre was used in a civic election campaign was during the Hall-North regime on the City Police Commission several years ago, when Joseph North engaged the theatre for his election speech, and collected an admission fee from the public in aid of charity. Mr. Deah's meeting will be free.

Sooke

Sooke, Nov. 30.—Mr. and Mrs. Eve of Victoria, have been recent visitors of their daughter and son-in-law, Mr. and Mrs. George Jones.

Mrs. Gralnic and the Misses Gralnic spent the week-end in Sooke. Miss Gray has been visiting her parents.

There were two games of basketball at Charlie's Hall on Saturday. The Sooke A and Butterflies played a snappy game of ball with the visitors coming out on the long end of the

score. The Redwings took the floor against the Spencer ladies, who won the game. All enjoyed the dance that followed to the music of F. Muir's orchestra.

A public meeting will be held on Saturday, December 3, under the auspices of the Liberal Association. Hon. T. D. Pattullo will address the meeting. There will be other speakers and a dance will follow.

The Sooke Women's Institute will hold their annual meeting for election of officers on December 4.

Winding up of Company is Asked

Toronto, Nov. 30.—Two petitions to wind up Brooks Steam Motors Ltd. were presented to Mr. Justice Middleton in chambers at Osgoode Hall yesterday. L. I. Towers, K.C., on behalf of the present directors, moved for an adjournment of two weeks to give him an opportunity to file further material in opposition.

One of the petitions is from Mrs. Edna M. Davies, stenographer, whose counsel asserted she represented 9,000 shares in trust for O. J. Brooks of Brooks Securities Ltd.

"So that Mr. Brooks is seeking to wind up his own company," commented the judge.

"That is hardly the case, but we will say it is," answered Peter White, K.C., Mrs. Davies' counsel.

The other petitioner is W. Gilmore, a member of the dissatisfied shareholders' committee.

The Attorney-General was represented by F. P. Brennan.

Both petitions were adjourned for two weeks and in the meantime G. T. Clarkson will look into the affairs of the company and report to the court.
